TOWARD A PHILOSOPHY OF THE ACT

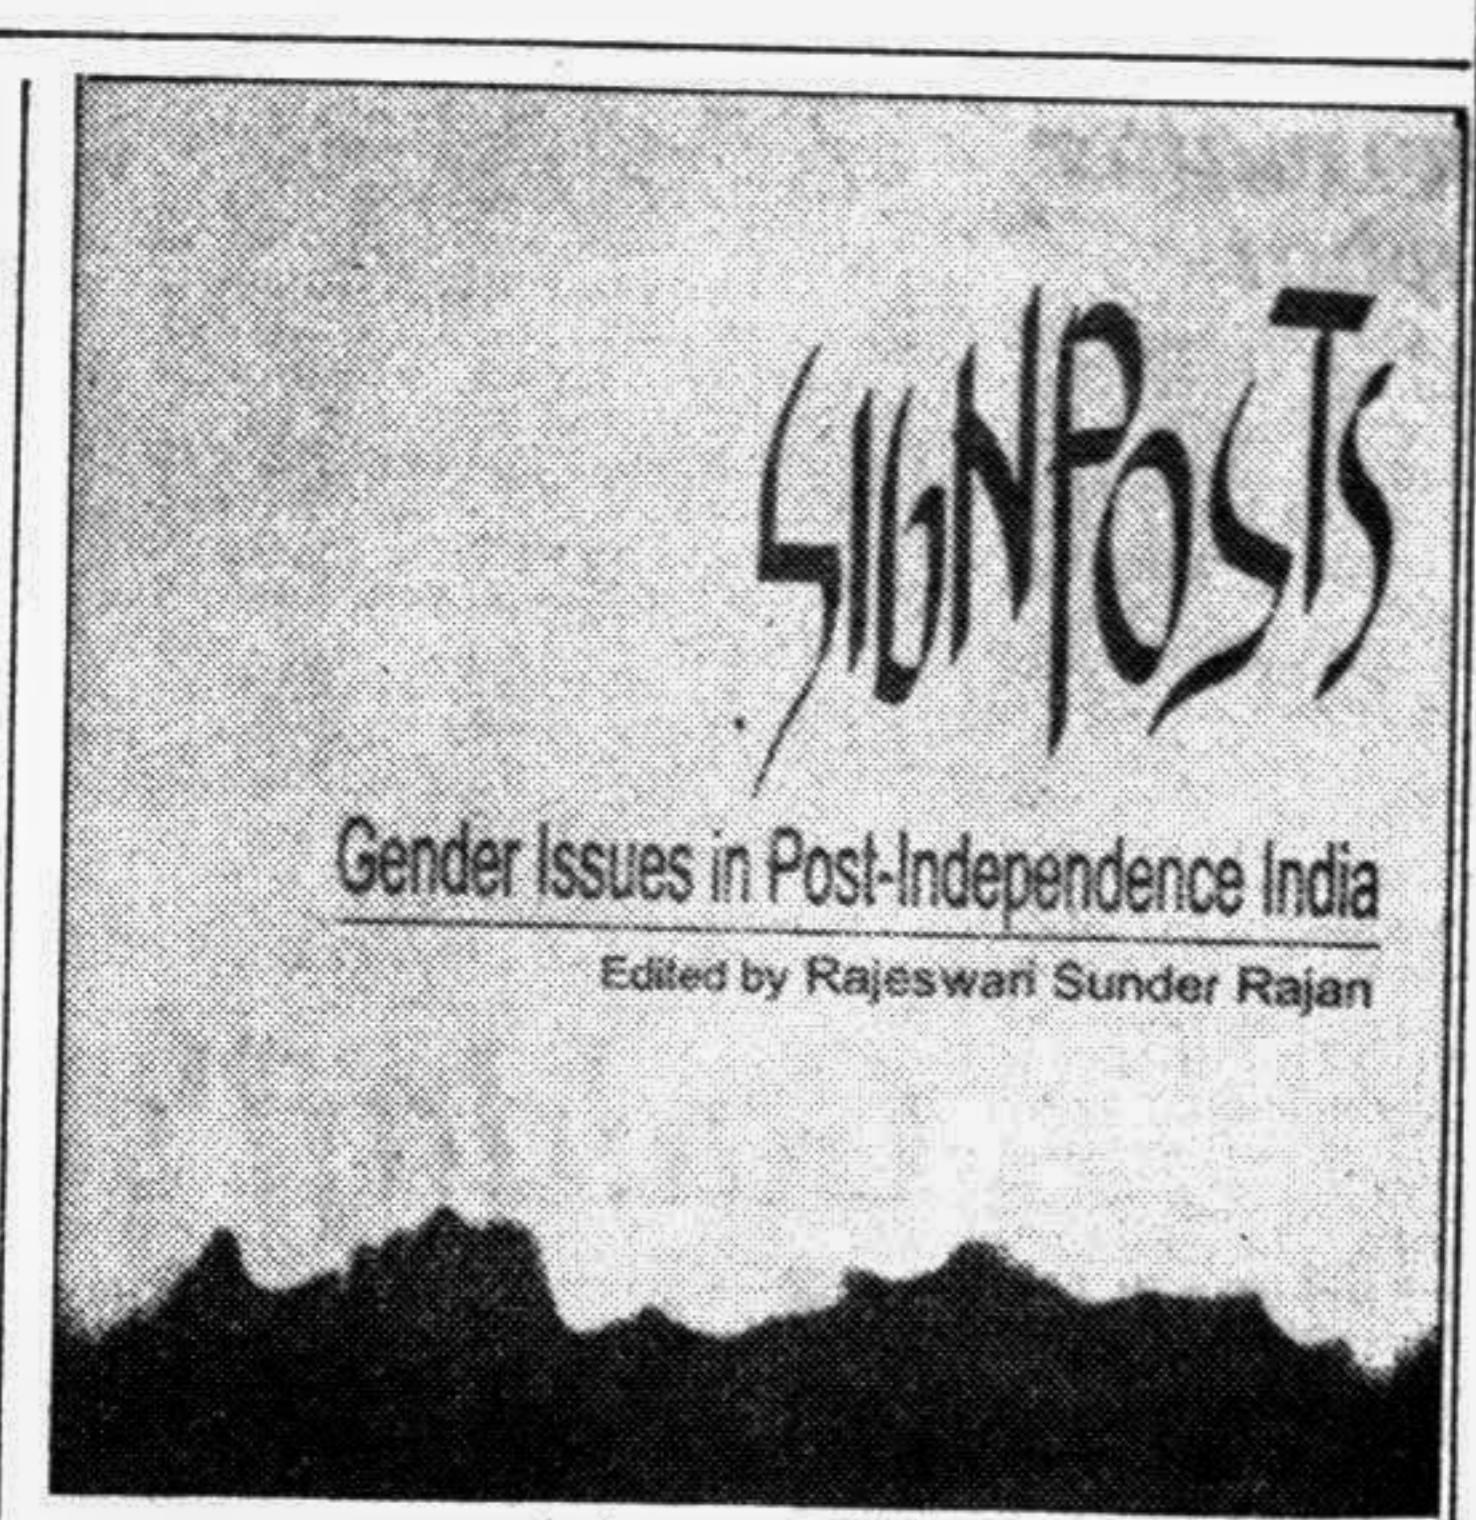

Author: M M Bakhtin
Publisher: University of Texas Press
Price: Tk 903/-
Toward a Philosophy of the Act contains the first occurrences of themes that occupied Bakhtin throughout his long career. The topics of authoring, responsibility, self and other, the moral significance of "outsideness," participatory thinking, the implications for the individual subject of having "no-alibi in existence," the difference between the world as experienced in actions and the world as represented in discourse—all are broached here in the heat of discovery. This is the "heart of the heart" of Bakhtin, the center of the dialogue between being and language, the world and mind, "the given" and "the created" that forms the core of Bakhtin's distinctive dialogism.

SOUND FIGURES

Author: Theodor W. Adorno
Publisher: Stanford University Press
Price: Tk 930/-
This volume includes essays on prominent figures in music (Alban Berg, Anton von Webern, Arturo Toscanini) compositional technique (the prehistory of the twelve-tone row, the function of counterpoint in new music), and the larger questions of musical sociology for which Adorno is most famous, including the election of interpretation to audience, the ideological function of opera, and the historical meaning of musical technique. The essay on the sociology of music, for example, represents and early statement of what would soon become trademark principles of his mode of musical analysis, serving as a catalyst for his famous study *Introduction to the Sociology of Music*.

SIGNPOSTS

Edited by Rajeswari Sunder Rajan
Price: Tk 600/-

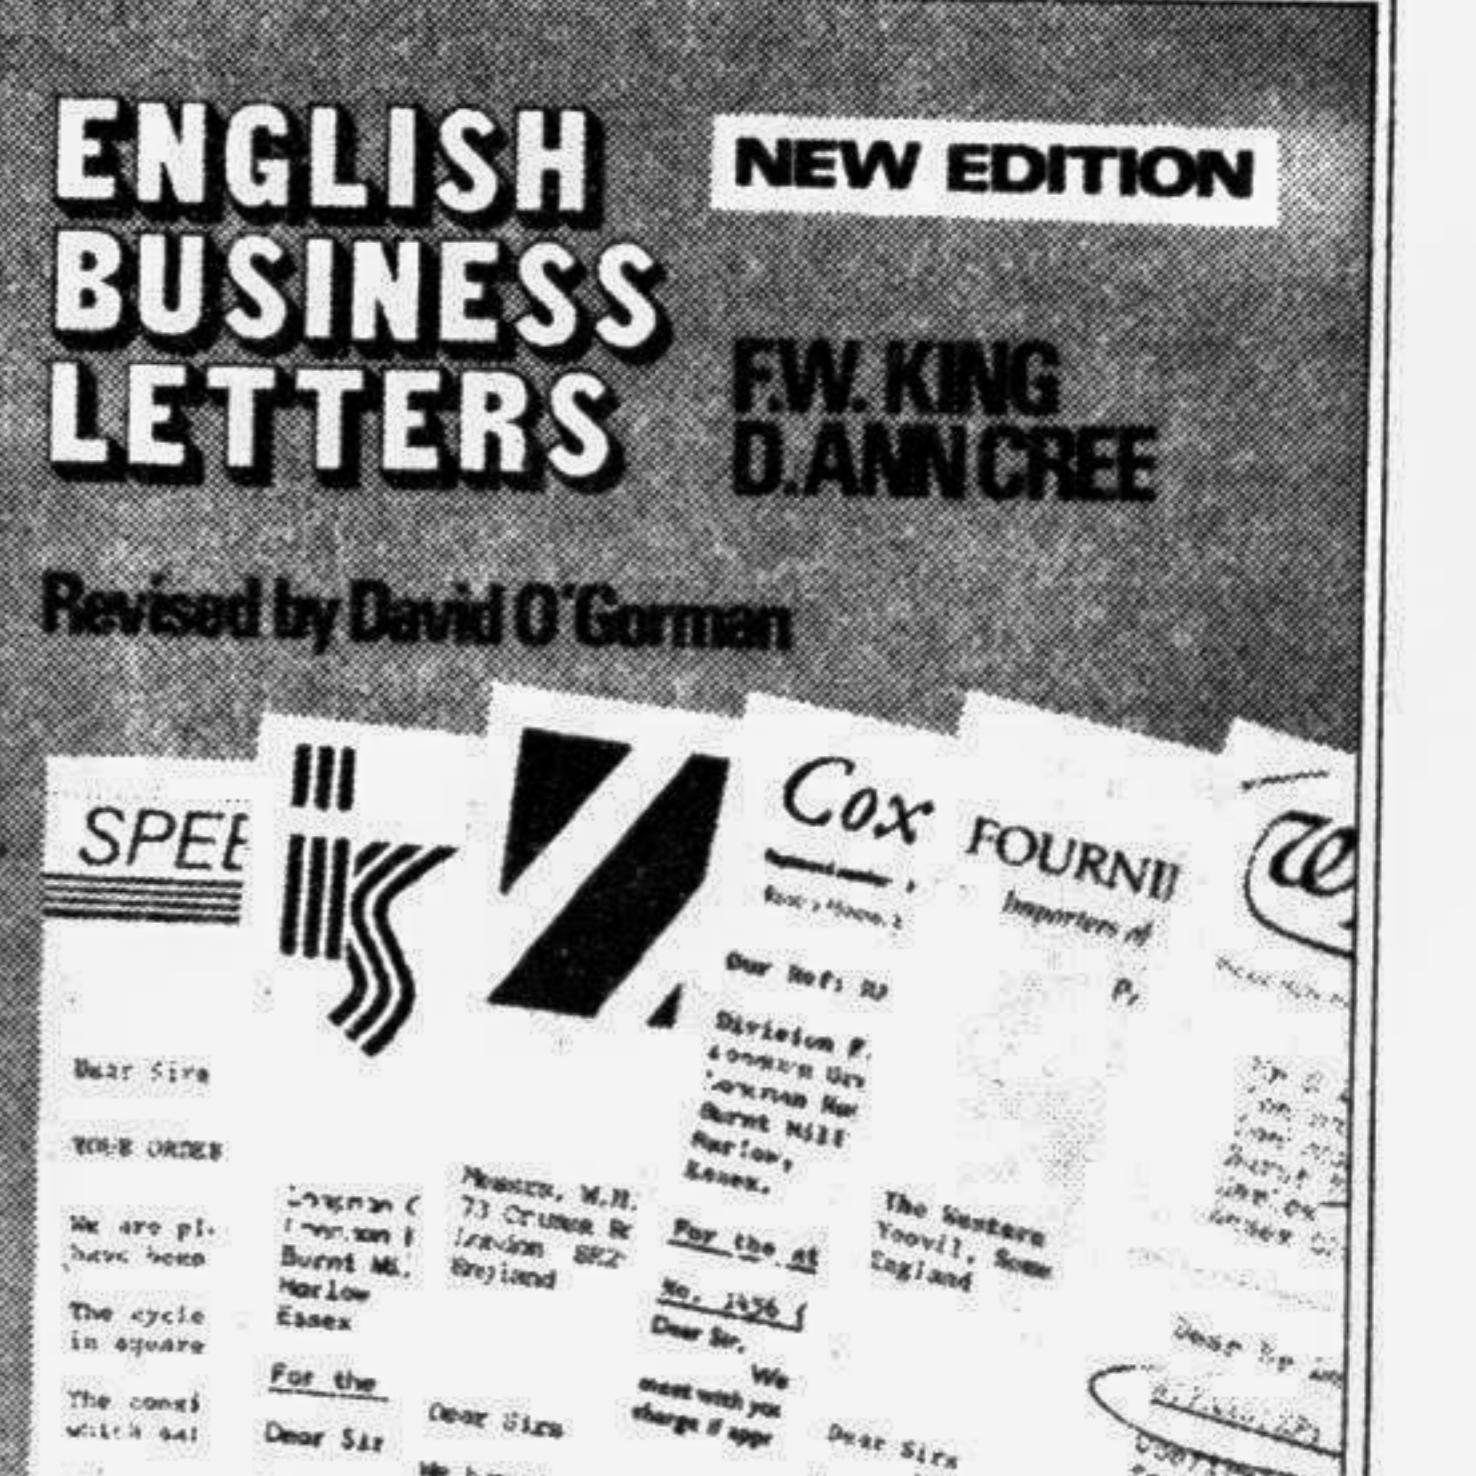

The essays in this volume map the concerns of gender onto the terrain of nation, finding significant connection, disjunctions and tensions between them. The authors argue that for any cultural analysis to be performed in the context of the decolonised nation-space, gender must take centre stage.

Two Screenplays, The Blood of a Poet, The Testament of Orpheus
Price: Tk 930/-

These two film scripts show Cocteau at his most surrealistic, employing dreams, subconscious fantasy and poetic imagery in a disturbing way to break down the barriers between reality and illusion. *The Blood of a Poet*, is a natural extension of symbolist and surrealist poetry into cinematic art, juxtaposing a bewildering series of ideas and images into a pattern where darkness, decadence and death are threaded with elements of eroticism and the search for love.
