Offering world-class services in Bangladesh

Standard Chartered is an international bank, which is focussed on the established and emerging markets of Asia, Africa, the Middle East, the sub-continent and Latin America. We have over 570 offices in more than 50 countries.

We aim to be the leading bank in our principal markets. We concentrate on markets and businesses we understand. We provide high quality products supported by proven delivery systems and excellent customer service. We train and develop staff and exercise community responsibility. In this way we will grow and we will enhance shareholder value.

In Bangladesh, we opened our first branch in Chittagong in 1948 and we have been growing ever since. Right now we have six branches in Dhaka, Chittagong and Sylhet and have the largest ATM network in the country. We are the pioneers of 24-hour banking in Bangladesh through our Moneylink ATMs and Phonelink phone banking.

We pledge to maximise customer satisfaction through our services and build a trusting relationship with our customers, which has already stood the test of nearly 150 years. We are also committed to bring world class service to the doorstep of our customers.
