Take ANZ Grindlays Bank as much as possible. The more you take ANZ the better. Then take any of its services. For added and enhanced flavor try to take more than one service, the more the better. Put ANZ in a huge bucket of Financial ambitions and aspirations. Then take your financial worries and drown them in the bucket. Add the services to the bucket, stir gently, don't shake, because in even the direst of situations ANZ Grindlays operates smoothly. When the mixing is done satisfactorily, and will be satisfactory anyway, because it's none other than ANZ, then simmer it in a slow fire of passion, hope and purpose. Don't hurry, because the people at ANZ are working relentlessly to make your transactions (be it a complicated corporate counseling or a simple savings account maintenance) almost impossibly tranquil. Now sit back and relax, let ANZ do the rest of the job for you. Serving one, that is you, or two, with your partner, a group or community, or even the nation itself.

ANZ Grindlays Bank
