

Trauma of Being Tall

By Manik & Ratan

Basket ball player Robert had many enemies. One day, one of his enemies hired armed goons to kill him. A goon came and shot him.

He was injured

As he was unusually tall, it was quite a trouble taking him to the hospital on an ambulance

Lying on the hospital bed was also a painful experience for him as the bed was too small for him.

Finally, he succumbed to his injuries

His autopsy was not smooth...

...Keeping his body in the morgue was more than just a trouble.

The coffin refused to give him enough room.

...He occupied more land at the Jazimpur cemetery

...and finally the heaven's gate gave him quite a headache getting in the other side of living.
