Family Law and its Impact on Women in Bangladesh
Author: Taslima Monsoor
Publisher: The University Press Limited
Price: Tk 550.00

Based on a detailed exposition of family law under the British colonial regime and Pakistani state law, the present study focuses on the more recent Bangladeshi legal developments. These were officially brought about to meet certain social needs and to improve the overall situation of women. However, apart from the reforms concerning the Family Courts Ordinance of 1985, and some glimpses of judicial activism, in reported as well as unreported cases, the existing family law reforms are shown to be mainly procedural. In particular, they appear unable to protect women effectively from violence and economic deprivation.
