**Metropolitan****PM urges all to stand beside flood-hit people****Int'l Disaster Control Day today**

President Justice Shahabuddin Ahmed said loss in natural disasters can be reduced with expansion of education and participation of all strata of people, particularly the youth, in disaster control and mitigation programme, reports UNB.

In a message yesterday on the eve of International Disaster Control Day, the President said Bangladesh by virtue of its geographical location is one of the disaster-prone country in the world. Almost every year one kind or other natural calamities inflicted people and hindered development.

He identified that lack of awareness and inadequate measures in disaster preparedness are the main causes for massive loss.

The President welcomed the initiative to observe the Day focussing on the theme "Education to Disaster Mitigation and Youth Community" as appropriate and timely.

Meanwhile, Prime Minister Sheikh Hasina called upon the countrymen to stand beside the distressed people during the natural calamities to mitigate their sufferings.

Timely and united efforts can save lives and property of the people during the natural disasters," said the Prime Minister in a message on the eve of the International Disaster Control Day today.

She said the members of the United Nations are observing the Day with fresh commitments in the new millennium under the auspices of the World Body. Observance of the Day in the disaster prone Bangladesh is very important and timely.

Referring to the current unexpected flooding in southwestern

districts, the Prime Minister said as in the past her government would tackle it successfully with the grace of Almighty Allah.

Lauding the role of the youths, Hasina said their participation is a must for overall development of the country, including expansion of education and protecting environment.

Hasina prayed for peace of the departed souls who lost their lives in fighting the natural disasters.

She wished a success of the programmes of the Day.
