### Iftikhar Ahmed becomes SEC member

Iftikhar Ahmed yesterday joined the Securities and Exchange Commission (SEC) as a Member. Earlier, the government appointed Ahmed to SEC as a full-time Member for a three-year term, says a press statement.

Prior to joining SEC, Iftikhar Ahmed was the Chairman of the Taxes Settlement Commis-

A former member of BCS (Tax) cadre Ahmed, in his long distinguished career, served in different capacities including that of the Member. National Board of Revenue (NBR).

### Sony, Solectron announce

tie-up

TOKYO, Oct 18: Sony Corp. said Wednesday it agree to sell two plants to US electronics maker Solectron Corp in an effort to streamline production. reports AP.

Sony Chief Operation Officer Kunitake Ando said the sale was part of a plan by the Japanese electronics giant to make key components on its own while relying on outsiders of less significant parts, or

outsourcing. The two factories being sold are the Nakaniida facility in Japan and Sony Industries Taiwan, which make high-end consumer products such as car satellite navigation systems and

car audio equipment. Neither side disclosed the terms of the deal.

Solectron Chairman and President Koichi Nishimura said the deal would help his company gains a foothold in two nations that are important electronics markets where Solectron lacks plants.

Nishimura said Solectron hoped to expand business at the plants to include products for other companies as well as for its business in China.

The deal underlines the growing need among electronics makers for nimbler, responsive production at a time when being first on the market can be crucial.

Ando said deals like the one with Solectron allow Sony to adjust production quickly and flexibly to meet fluctuating demand for components. He would not discuss any other similar deals in the works.

Solectron plans no layoffs The plant in Japan employs 1,300 people, the Taiwan facil-

ity 750 people. Solectron, which manufactures computer and electronic parts for other companies, has had an office in Japan since

Solectron is based in Milpitas. California. and employs 65.000 people worldwide and recorded US 14.1 billion in sales for fiscal 2000.

### US industrial output growth slows

WASHINGTON, Oct 18: Production by US mines, factories and utilities slowed in September as industry posted its smallest quarterly output gains in 1-1/2 years during the July-September period, the Federal Reserve said vesterday, reports

Total industrial output grew by 0.2 per cent last month, only half of August's growth rate of 0.4 per cent. Factories operated at 82.2 per cent of their capac ity in both months, well below rates that might generate inflation worries.

Analysts said the Fed figures added to signs of gradual cooling in the industrial sector already evident in weaker manufacturing employment but said it did not imply an abrupt falloff in economic ac tivity ahead.

During the July-September quarter, production rose at an annual rate of only 2.8 per cent. sharply down from 8.2 per cent in the second quarter. This was the smallest three-month advance since a 2 per cent gain in President Bill Clinton on Tues-

the first quarter of 1999. ### Cuba embargo easing sure to pass US Senate

WASHINGTON, Oct 18: The US Senate was sure to pass legislation allowing sales of US food and medicine to Cuba. lawmakers and lobbyists said yesterday, despite complaints that a wider opening to the communist-ruled island was justified, reports Reuters.

Senators were scheduled to vote on Wednesday afternoon on the proposal, potentially a pivotal change in US-Cuba relations. Cuba views the measure as a charade that actually tightens the 38-year-old US embargo and says it will not make any purchases.

A protest march on the US diplomatic mission in Havana could coincide with the Senate vote. There was little doubt of passage, with the Clinton administration and the House of Representatives backing the

North Dakota Democratic Sen Byron Dorgan said passage was a formality and called the proposal little more than a step in the right direction. "There's going to be no grain

sales to Cuba because of the restrictions put in here," Dorgan said. A farm lobbyist said 70 or

more of the 100 senators would likely vote for it. Under the proposal tucked into a \$78 billion agriculture

funding bill, food and medicine would be exempt from unilateral US embargoes. Cuba was money, to be funded by higher | the target of the change but it would also affect Iran. Sudan. "This legislation does those with job training and education | Libya and North Korea, where sales are allowed on a case-bycase basis. No public or private US fi

nancing would be allowed for food sales to Cuba, and rules that generally bar US travel to Cuba would be written into law. A new category of permitted travel would be created, to pursue agricultural sales.
