# Hang up on your current job. There's an interesting call waiting.

In 1993 CityCell was the first to launch mobile phone services in Bangladesh. We were also the first to bring mobile phone coverage to Chittagong. This was followed by the launch of CDMA technology in 1999. Yet another first for the entire sub-continent.

You can now be a part of that experience. Be a proud member of that family which is expanding across Bangladesh and growing from strength to strength. We require hardcore professionals to join us as we reach out to all corners of Bangladesh. And you could well be the one to do so.
