Career Opportunity for Treasury Manager

The Treasury and Capital Markets division of HSBC is one of the top players in the Asian markets. Our Hong Kong dealing room is the largest in Asia, outside Japan, and is at the heart of our treasury and capital markets operation in Asia. We now offer a career opportunity for a Treasury Manager to join our team in Bangladesh.

Reporting to the Chief Executive Officer, you will manage the interest rate and exchange rate risks, liquidity and cash flows. You will seek to maximise profit contribution to HSBC Bangladesh, while ensuring compliance with the spirit and the letter of all laws, codes, rules and regulations. The treasury front office team consists of the Treasury Manager and one direct report.

The major challenges of the role are to maximise synergies within the Bank and contribute to an expansion of the customer base and profile of HSBC in Bangladesh; all within a tight, well-run control environment. You will also be expected to develop products and marketing strategies in line with the development of the market in Bangladesh.

Ideally, you will have four to seven years Treasury experience in trading, broking, sales, compliance, audit and operations. You must be highly numerate and have the ability to work enthusiastically under strong pressure and to handle tight deadlines. You will need a solid working knowledge of the foreign exchange and money market business in Bangladesh; strong credentials in terms of credit and market risk management; and a good understanding of Corporate Banking and Trade Services products.

You will need very good communication and presentation skills as well as excellent interpersonal skills in order to liaise successfully with contacts at all levels both within the organisation and externally. Computer literacy and database management experience is essential.
