International Labour Organisation (ILO) Area Office Dhaka

ILO is a United Nations Specialized Agency. The International Program on the Elimination of Child Labour (IPEC) is one of its technical cooperation programs. It was launched with the aim to work towards the prevention and elimination of child labour worldwide. Since its inception in 1992, the ILO/IPEC has made efforts collaboratively with its member states, constituents and other national stakeholders in combating the child labour problem through policy and action on various fronts. IPEC became operational in Bangladesh when the Government of Bangladesh signed the MOU on a National IPEC Program with the ILO in 1994. Since then over 75 Action Programs have been implemented by the Government, NGOs and trade unions. Thousands of child workers were reached through various means. Adoption of the ILO Convention No. 182 in 1999, led to prioritizing IPEC's actions towards the elimination of the worst forms of child labour. In this context, ILO/IPEC recently launched an action-oriented project titled "Preventing & eliminating worst forms of child labour in the urban, informal sector," for which seeks applications from candidates for a team comprised of 3 Coordinators (as described below), to assist the Chief Technical Adviser (CTA-responsible for the implementation of this project), under the overall supervision of the Director.
