## IHT students demand implementation of new syllabus

STAFF CORRESPONDENT

More than 1100 health technology students have been demonstrating in Dhaka and Rajshahi since mid March demanding immediate implementation of a new syllabus.

According to sources, changes in the existing syllabus (introduced in 1963) at the Institute of Health Technologists (IHT) was recommended by a high level committee recently. The proposed new curriculum is ideal for the

modern age. The institute admits 275 students every year for diploma courses and it suffers because the curriculum is not up to interna-

tional standards. Change in the institute's syllabus was first advocated in 1992 and sent to the Education Board. Interestingly it took an astonishing eight years before the board on 31 July 2000, recommended that the diploma courses of health technologists be upgraded to the Higher Secondary Certificate

The secretary of education ministry then directed the State Medical Faculty to issue a letter about the decision to upgrade the curriculum and recognise the institute's courses as HSC equiva-

In January this year, a workshop was held to approve and review the curriculum at the State Medical Faculty where the participants unanimously agreed in favour of the modifications.

However, the then director of medical education reportedly refused to accept this and requested further reviews thus delaying the entire process again.

"There are forces acting against us who do not want the new syllabus recognised. We demonstrated several times but the authorities concerned don't seem to care," said Dabir Uddin Khan Tushar, convenor of the IHT's Kendriya Chhatra Sangram Parishad.
