Exhibition Standing by the acid victims

Photographer Shafiqul Alam Kiron, under the aegis of a new student forum, holds a week-long charity solo at the Alliance Francaise Gallery in Dhaka from October 12

ONIA, a teenage girl was leading a simple life in happiness within the disciplined boundaries of her family. The adolescent girl was innocent and this very innocence made her pay maximum penalty, disfiguration of her face including loss of eyesight after an acid attack. To make a mockery of the women's right, the attacker, a forlorn lover, chose a particular date, March 08, the 'International Women's Day' in 1997 to carry out the heinous plan ! Immediate financial and legal help from 'Naripokkho', a women rights' organisation, arrived at the doorsteps of the girl. She was flown to Spain along with several other acid victims for treatment of facial reconstruction and cornea transplanta-

With a striking change in the pattern of criminal activities in Bangladesh, the incident of acid violence rose sharply over the last decade or so and it now seems to be one of the deadliest curses for young girls and women. It was in 1999 when Acid Survivors' Foundation (ASF) was formed in Dhaka with Dr. John Morrison as its Executive Director. The foundation with assistance and directives from UNICEF besides cooperation from various NGOs and professional bodies have successfully treated and rehabilitated numerous girls, women and children victimised and maimed by acid

As the initial works of ASF was gaining strength, photographer Shafigul Alam Kiron of Map Photo Agency decided to do photo story on acid victims and their various aspects and conditions.

"I am working for the cause of these unfortunate girls, gripped by the clutches of grim reality. Through my photographs I want to raise awareness among the general public and make them think how to resist the criminals indulged in acid throwing", says Kiron while preparing to hold his forthcoming exhibition at the gallery of Alliance Francaise de Dhaka from October mum of 10 taka entry fee. 12, 2001 organised by the recently

Naeem, the 4-year old child received severe burn injuries and fought a daring month-long battle with death before succumbing to her death at the hospital bed recently

These girls, all victims of acid attack, have undergone successful treatment abroad and now learning computer skills at the IBM training center in Dhaka

tions include the photo of Naeem, a four-year old boy, who received serious burn injuries and finally had to depart this world a few weeks back after fighting a gruelling battle with death at the hospital bed for nearly a month.

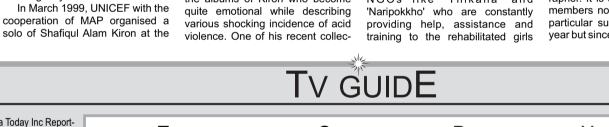

He acknowledges the strong efforts and contributions of various NGOs like 'Thikana' and 'Naripokkho' who are constantly providing help, assistance and training to the rehabilitated girls

many of whom are now working as full-time staffers at the organisations and others completing vocational training in various charityoriented small investment projects and factories.

critical issue therefore I would like to carry on in interest of the nation. probably, till that day when there would remain no monstrous human in this country to inflict attacks on females", mentions Shafigul Alam Kiron, highly serious and committed to raise awareness and sensitise people about acid violence
