UNB, Dhaka

Awami League President Sheikh Hasina yesterday expressed her strong resentment and condemnation over the gangrape incident of a maid by the leaders of Jubo Dal at Kazirchar in Dohar upazila.

In a statement, she alleged that armed cadres of BNP and its front organisations under the protection of an influential BNP leader

and his brothers and children have been committing various crimes in the upazila as like as across the country.

Dohar has now become a den of armed terrorists, Hasina said adding that none are safe in the hands of the armed terrorists of BNP and its front organisations.

"In continuation of their anti-social activities, the JCD and Jubo Dal activists gangraped maid at Kazirchar on March 1, but the culprits are still at large," she added.

Develop skilled human resources for economic emancipation

President tells USTC convocation ceremony

OUR CORRESPONDENT, Ctg

President AQM Badruddoza Chowdhury yesterday called upon the universities to develop skilled human resources for the economic emancipation and social progress of the country with the advancement in technology.

He also called upon the physicians to raise awareness about the fatal diseases such as HIV/AIDS, Hepatitis B and C and arsenic contamination.

The President made this call while inaugurating the second convocation of the University of Science and Technology, Chittagong (USTC) on the university campus here in the morning.

Prof Ilyas Dhami, Science Advisor to the President of Pakistan, was the convocation speaker.

Speaking as chief guest, the president stressed the need for removing the obstacles on the way of industrial development. The country can achieve economic prosperity with the proper use of

natural resources, he added.

President Badruddoza, also laid emphasis on the development of IT sector to catch up with the rest of the world and said that through the development of software alone, many countries including neighbouring India were making remarkable progress in the economy.

Referring to health sector, the president said that although there are health centres in rural areas, many villagers were being deprived of treatment facilities due to shortage of physicians.

He urged the medical students to go to remote rural areas to extend their services for these people.

The president also called for creating a healthy and congenial atmosphere in the universities.

Speaking at the ceremony, convocation speaker Prof MS Ilyas Dhami termed the generation of technology an 'absolute need' for the developing countries and said

that a developing country should not be swayed by the prevalent notion that the generation of technology is not economically sound, if not impossible.

There was a vast scope for technology generation by such countries themselves and highly qualified people were more than anything else to this end for changing the methods and the milieu of Bangladesh, Prof. Ilyas Dhami opined.

The founder Vice-chancellor of USTC and National Professor Nurul Islam in his address explained the activities and contribution of the university.

He said that apart from local students, students from nine countries were also studying in the six faculties of the two campuses (four in Chittagong and two in Dhaka) of USTC. The foreign students comprise one third of the total students, he said.

Later, President Badruddoza conferred degrees on 142 students at the convocation ceremony.

'Long march towards Bibiana unnecessary'

UNB, Dhaka

State Minister for Energy and Mineral Resources AKM Mosharraf Hossain yesterday described the long march towards Bibiana as "unnecessary" and said it was aimed at "misguiding" people's sentiment.

"They are not thinking rationally. They are not considering economic aspects. Rather, the small groups are trying to misguide people by propaganda," he told UNB.

He said the government repeatedly said it is yet to take any decision about gas export by pipeline. "But these people have started a long march against gas export,"

The state minister said two national committees -- one to determine reserve and another to find out alternative uses of the natural resource -- have been formed and any decision will be taken following their reports.

"If they suggest export, the government might go for it. But everything will be done in a transparent way, all decisions will be

taken through discussions in parliament," he added.

Mosharraf said the government trusts the committees comprising experts from Bangladesh University of Engineering and Technology, Geology departments of universities, BIDS and CPD.

When the committees are working to find out best alternatives, they (long march organisers) didn't come up with any specific proposal. He said if they want to sit with him, he would like to listen to their suggestions, if there is any.

Asked whether the government is under pressure to export gas, Mosharraf replied in the negative.

But, he said, there are pressures for making payment in foreign currency to the international oil companies and utilising gas they explored as per production sharing contracts signed with them.

Asked about the logic of having so many PSCs, the state minister blamed the past Awami League government for pushing them to an awkward situation.

Norwegian ambassador Gerd Wahlstrom paid a courtesy call on Leader of the Opposition in Parliament and Awami League Chief Sheikh Hasina at her Sudha Sadan residence in the city yesterday.
