Sirajganj: A class one municipality only in name

AKHTERUZZAMAN BABLU, *Sirajganj*

The residents of Sirajganj Municipality are deprived of civic amenities for a long time.

Although the population of the municipality is increasing day by day, yet the municipality authorities are not providing basic civic amenities to them.
Sirajganj Municipality was established in 1876. At present the population in the municipality area is 1,30,000. It was upgraded into A grade in 1992, but the facilities of a first class municipality are not available here.
Town dwellers suffer much due to absence of proper drainage system, deplorable condition of roads, inadequate streetlight, lock of proper sanitary system, frequent traffic jam and absence of recreational facilities.
Absence of proper drainage system is a major problem in the municipality area. The town dwellers face difficulties due to stagnation of water in drains. Most of the drains are filled with filth and garbage which are not cleaned properly.
In many areas there are no drains. During the rainy season the drains are accumulated with dirt and filth. It poses as health hazard to the inhabitants of the municipality, especially during the rainy seasons. Due to lock of proper maintenance and repair work, most of the roads are in deplorable condition.
The damaged roads are Diar Dhangara Road, Saygobindo Road, Masumpur and Shahednagor (Baparipara) Road, Cracks and potholes have been developed at many points of the roads. The number of damaged roads increased.
Meanwhile, the road starting from Sayagobindo flattened rice mill to Moulana Bashani Road, Sadarpara Road, Shahednagor (Baparipara) Road are in bad shape. SS Road, Mujib Road, New Dhaka Road are the main roads of the town, but the pedestrians can not even walk easily through these roads.
Most covers of the drains are broken and the footpaths are generally occupied with makeshift shop owners. Some roads of the town are very narrow which are unfit to ply even two rickshaws at a time. Sardear Para Road starting from the flattened rice mill to Bashani Road is such a bad road. After slight rainfall most of the roads become muddy and slippery. Rain water remains

stagnant on the roads, causing difficulties and sufferings to the passers-by and vehicular movement.
Violation of traffic rules has become a normal affair. It causes a serious traffic jam in different points of the town. Sirajganj tempo stand, Sayadhangara Road, Raipur station road and Mirpur crossing point are seriously affected by traffic jams.
Because of increase in number of rickshaws traffic jam has become a regular phenomenon here. According to official sources in Sirajganj Municipality, there are 4,200 licensed rickshaws on the road, but actually about 1,000 rickshaws are playing on the roads here.
Street lights are inadequate while most street lights have broken down or gone out of order for a long time. Most of the roads and residential areas go under darkness just after the sunset.
Sanitary system of the town is not satisfactory. A few dustbins have been set up in the town which always remain unclean. Garbages of the drains are not removed at day time creating obnoxious odour. Some people who are floating, respond to the call of nature in roadside places and drains causing inconvenience to common people. Consequently the environment of the surroundings is polluted. Besides, some dwellers of the municipality are still using kutcha latrines.
There is a children's park on Fazlul Haque Road in front of the rectified spirit sellers shops here, but nobody takes care of it. As a result the park has been abandoned. Now it has been turned into a grazing field and so-called prostitutes remain engaged in anti-social activities.
When contacted with an officer of the municipality, he informed that the children's park is not the property of the municipality. It is under the supervision of the district administration.
The residents of the municipality have urged the authorities concerned to take proper steps to mitigate their sufferings.
