Announcement

We apologise to our honoured subscribers and patrons for the temporary disruption of our services due to no fault of ours. Internet services in the country were disrupted due to some problem in the BTTB's telephone exchange but this has now been solved and our services are fast returning to normal.

Contrary to the impression that only a few ISPs were affected, in fact, to the best of our knowledge, all the ISPs in Dhaka, including us, were affected.

We thank BTTB for taking prompt action in solving the problem and at the same time we assure our subscribers and patrons continued good service from our end.
