ORS saves lives of 4cr children worldwide

UNB, Dhaka

Oral Rehydration Therapy, developed by the International Centre for Diarrhoeal Disease Research, Bangladesh (ICDDR,B) in the '70s, has saved the lives of about four crore children around the globe so

saved from the killer disease at the from 5 million to 1.5 million per mixture themselves and do not Centre's Dhaka hospital alone during the last two decades, five. ICDDR,B officials said in the city vesterday, narrating their success story glorified at a news conference in the UN Headquarters in New York on Friday.

ICDDR,B developed a simple oral dehydration solution (ORS), which revolutionised the management of diarrhoea, the most common killer of children at that

'Since the formulation of the life-saving therapy, use of the ORS were reluctant to believe that
