

New CEO of **Citibank NA** Bangladesh

Mamun Rashid has been appointed chief executive officer for Citibank NA's Bangladesh operations, says a press release.

July 3.

He joined the bank as the chief operating officer in Bangladesh last year.

Prior to his joining Citibank Rashid was the head of Corporate and Institutions for the Standard Chartered group in Bangladesh. With a banking career spanning over 17 years, he has worked in Treasury, Institutional Banking, Debt Restructuring and Recoveries and Corporate Banking.

The outgoing CEO David Rees has spent almost 4 years in Bangladesh during which the Citibank Franchise has experienced strong growth.

In a significant career move, he is joining Saudi American Bank in Riyadh, a Citibank affiliate and the largest private sector bank in Saudi Arabia.

"Commenting on Mamun's appointment, David Rees said, "We are very pleased that he has become the first Bangladeshi to lead our business in this country.

New MD of Southeast Bank

Syed Abu Naser Bukhtear Ahmed ioined Southeast Bank Limited as President and Managing Director on Thursday, says a press release.

Prior to joining Southeast Bank Limited. Ahmed was with Prime Bank Limited as acting managing director.

to extend large loan limit SHAHRIAR KARIM tral bank officials vesterday The chief executives of the PCBs said they will form a committee On plea from the private commercial

headed by the Pubali Bank MD banks (PCBs) to extend the limit for Khondker Ibrahim Khaled and sanctioning large loans, the central bank yesterday sought unified submit its report by July 3, according written suggestions from them by to meeting sources. Under the existing rule, any loan

The request was placed at a that crosses 15 per cent of the paid meeting between the managing up capital of a bank is considered a directors of the PCBs and the big loan and the bank has to take Bangladesh Bank (BB) Governor Dr approval from the central bank in Fakhruddin Ahmed and other censanctioning those loans

Against the backdrop of increas ing number of complaints about nonpayment of documentary credits or L/Cs by the country's banks the BB governor asked the PSB chiefs to be extra cautious and fulfill their commitments in time.

BB seeks PCB suggestions

In case of failing to pay, a central bank deputy governor said it might be compelled to make payments of the documentary credits from the funds of the banks kept at the central bank, the meeting source said.

The chief executives of the PCBs also asked the central bank to make a guideline regarding division of power of the board and management of the banks as done for the nationalised commercial banks (NCBs)

Their request came on the heels of different PCB boards' interference on the affair of the management. In this context, the BB governor

asked the PCBs to send their opinion regarding this by June 15.

STAR BUSINESS REPORT Asian Development Bank (ADB) is considering allocation of more funds And it is being further followed by the for power development in Bangladesh as 'there has been

indications of rapid growth of the sector S Chander, principal project engineer of the ADB, yesterday disclosed this while talking to journalists in the city. He is leading an ABD mission, which is currently on a weeklong visit to discuss the power sector's reform and finance related issues with the government.

Talking to pressmen S Chander said the country's power sector is all set to yield greater benefits provided some decisive reform steps are taken

He said the ADB's latest funding was more 200 million dollars for different projects and now it has been considering funding more.

The ABD mission chief said the country's consistent power policies led the ADB to hoping a better future of the country's power sector.

regulations

Talking about DESCO, Chander said initially DESCO's performance was not good enough as it was given the task to handle areas of DESA with huge systems loss. "The systems loss in the area

was 45 per cent when DESCO took over the responsibility of Mirpur area," he said. "Now DESCO has reduced it to 25 per cent. Besides, the revenue collection has been showing an up trend," he said, claiming the performance of DESCO has improved to a great extent.

HSBC workshop on euro held

HSBC Institutional Banking department organised a workshop on proper identification of euro notes for Sonali Bank officers recently, says a press release

A total of 14 officers from different Sonali Bank branches based in Dhaka, Chittagong and Sylhet participated in the workshop. HSBC has one of the largest

branch network in Europe and is amongst the leading banks in euro clearing with direct clearing access

to 15 EU countries. Operating for more than 135 years, the HSBC Group has some 7.000 offices in 81 countries and territories in Europe, Asia-Pacific region, the Americas, Middle East and Africa serving over 29 million customers worldwide

Indian oil companies on Monday raised petroleum and diesel prices to reduce losses at state-run oil refiners after the government allowed them to offset increases in international rates following a two-

month moratorium. Petroleum and Natural Gas Minister Ram Naik told a press conference retail gasoline prices in New Delhi would rise at midnight on Monday by 2.50 rupees a litre to 28.94 rupees (59 cents).

Similarly, diesel prices would go up by 1.5 rupees a litre to 18 rupees.

There was no immediate hike in the price of liquefied petroleum gas (cooking gas), and kerosene.

India's move to scrap price controls on core petroleum products from April 1 was accompanied by assurances from the government and oil marketing firms that there would be no immediate hike in the price of cooking gas, kerosene, petrol and diesel

But the recent volatility in the international oil price has severely tested those assurances, with staterun marketing firms having to absorb losses in order to protect the consumer

While India allowed local refiners

control over the country's 65 billiondollar oil market, it asked them to hold off from raising prices for three months, now cut to two, to cushion customers from a surge in crude oil prices.

> Crude oil prices have risen 27 per cent this year, leaving India's fuel prices at about four rupees a litre below world levels. That has led to losses of 20 billion rupees at state-run refiners, which own all the 19,000 fuel stations in the country.

"They will be compensated for the loss," Naik said, without giving details

The government tried to balance the effect of the price rise to consumers, who already pay two times as much as US prices, by cutting the excise tax on gasoline to 30 per cent from 32 per cent.

Fuel prices and excise taxes will be revised quarterly, the minister said India imports 70 per cent of its oil

needs, while natural gas production can only meet 50 per cent of demand.

The fair, which showcased three under construction shopping complexes at Elephant Road and New Elephant Road of Subastu Development Ltd at, ran from April 18 to May 30.

Panel proposes outsourcing govt work to prop up Japan economy management resources

AFP, Tokyo

It said it also hoped to boost The Japanese government's key regional economies, encourage the economic panel unveiled a proposal development of new industries and Monday to prop up the recessioncreate growth opportunities through globalisation weary economy, including measures to expand the private sector

"We must expand the private sector by shifting the backbone of economic activities from the public sector to the private sector." the panel said in its proposal, which will now be discussed by other government groups. Under the 30-point action plan,

the panel suggested giving greater

autonomy to public universities to increase their international competitiveness and improve the nation's higher education

The deregulation of industries was also on the agenda, along with giving greater authority to local governments from the national level.

The proposals encouraged the formation of free trade agreements with other nations to encourage globalisation and create new opporunities for Japanese companies.

The panel said it wanted to attract skilled foreign workers and foreign

ulation.

"Human resources, technology and management resources are 'tools for growth' that would boost industrial competitiveness and supply strength," the panel said in its proposal.
