554 docs qualified in 21st BCS exams to be recruited: PM

BSS, Dhaka

Prime Minister Khaleda Zia yesterday said her government has decided to recruit 554 doctors qualified in the 21st BCS examination during 1999-2000 without delay as they were not given appointments at that time.

During a meeting with a delegation of eminent doctors of government and non-government organisations led by Vice Chancellor of BSMMU Prof M A Hadi and Dr A Z M Zahid Hossain, consultant of Dhaka Medical College at her office, she said the Public Service Commission (PSC) has been requested to take necessary steps in this regard.

Khaleda said the PSC has been asked to take steps to fill up 434 vacant posts of professor, associate professor, assistant professor and senior consultant which were lying vacant for a long under different medical institutions.

Approval has been given for recruitment of 1,000 nurses in two phases, she said, adding the job of 23 ad-hoc directors in the Health Directorate has been regularised to strengthen the activities of the health sector.

Health and Family Welfare Minister Dr Khondoker Mosharrar Hossain, State Minister for Health Amanullah Aman and Prime Minister's political secretaries -- Haris Chowdhury and Al-haj Mosaddck Ali -- were present on the occa-

sion. The prime minister said to solve the problems of shortage of trained teachers in medical colleges, 50 per cent seats would be kept reserved for private doctors for higher education at post graduation level. Training opportunity for private doctors would also be expanded at home and abroad, she added.

She said 738 doctors have been given promotion to Senior Scale while 751 given selection grade through Departmental Promotion Committee (DPC). All these decisions have been taken, she said, as a part of her election pledge to reach health care to the doorstep

of the people and ensure health for all.

She said as per her election, pledge MBBS doctors would be sent to Union Parishad levels. Vacant posts of health workers at field levels would also be filled up soon, she added.

Sounding a note of caution, Khaleda said she would no longer like to listen to complaints that doctors are not available in their respective work places.

She said doctors have to work with dedication and devotion as they are in a noble profession. They have to serve the people and earn their love and respect she said while stressing the need for improved health service.
