Student strike today

STAFF CORRESPONDENT

The Progressive Students' Unity, an alliance of eight left-leaning student organisations, has called a strike in all educational institutions across the country today demanding withdrawal of the ban on political activities at Bangladesh University of Engineering and Technology (BUET) and immediate reopening of Dhaka University.

In a statement yesterday, the Bangladesh Chhatra Union urged the students to make the strike a success.

Our CU correspondent adds: the Progressive Students' Unity (PSU), Chittagong district unit, took out a procession and held a rally at the Amtala intersection in the port city on Sunday in support of the student strike.

At the rally, they demanded immediate arrest and punishment of the killers of BUET student Sahebun Nahar Sony and withdrawal of the expulsion order on 12 BUET students.

BELA serves notice to shift tanneries from Hazaribagh

BSS, Dhaka

Bangladesh Environmental Lawyers Association (BELA) yesterday served a legal notice upon concerned authorities demanding immediate shifting of tanneries from the city's Hazaribagh residential area to a suitable place for industrial operation and also for ensuring adopting appropriate pollution fighting devices by the tanneries.

The notice has been served upon the secretaries, Ministry of Industries and Ministry of Environment and Forest Director General, Department of Environment (DOE), Mayor, Dhaka City Corporation, Chairmen, Rajdhani Unnayan Kartirpakhya (RAJUK), Tanneries Association, Bangladesh Finished Leather, Leather Goods and Footwear Exporters Association (BFLFEA) and BSCIC.

The BELA, in the notice, alleged that despite strict legal requirement, the tanneries in Hazaribagh are operating without obtaining environmental clearance from Department of Environment. These tanneries are situated in the residential area and have no effective waste treatment facilities.

The non-compliance by the tanneries with the waste management rules results in emission/dischage of toxic wastes causing serious health hazards to the nearby dwellers.

The untreated wastes from the tanneries of Hazaribagh ultimately reach the river Buriganga. Over the years, such dumping of highly toxic wastes from the tanneries and other sources has severely polluted the waters of Buriganga.

As a result, the water quality of

the river has gone below the acceptable limit threatening its aquatic life and adversely affecting the million dependants on the water of Buriganga.

The legal notice of BELA requested the authorities to implement the recommendation of the Master Plan to take appropriate measures for relocation of the tanneries from Hazaribagh to a suitable area within ten days from the date of receipt of the notice.

BELA has threatened legal action in case the authorities fail to comply with its requests.
