

BUET teachers demand trial of Sony's killers

STAFF CORRESPONDENT

The Bangladesh University of Engineering and Technology Teachers' Association (BUETTA) yesterday demanded speedy trial of the killers of Sabequn Nahar Sony, a BUET student who was killed in a gunfight between the rival factions of JCD on the campus on June 8.

At an emergency meeting, the teachers also demanded of the BUET authorities to conduct a proper investigation into all 'in-disciplinary activities' that took

place on the campus after August 11.

They also urged the authorities to form a committee that will identify the causes of such untoward incidents and recommend measures to check recurrence of such incidents.

The association also protested the remarks by some individuals about BUET teachers and officials.

Association president Dr. M Habibur Rahman presided over the meeting.

State Minister for Cultural Affairs Selima Rahman receives an artwork by artist Deepa Haque at the Shilpakala Academy auditorium in the city yesterday. The artwork has been collected for the National Art Gallery.

50,000 suffering from arsenic poisoning in Chandpur

BSS, Chandpur

Arsenic-contaminated tubewell water have created a panic in all the eight upazilas of the district.

According to Chandpur Public Health Engineering Department (PHED), about 50 thousand people of the district have been suffering from arsenic-related diseases.

The PHED has already started testing the proportion of arsenic contents in tubewell water throughout the district. But with limited resources, PHED is unable to tackle this alarming situation.

Arsenic pollution in tubewell

water have been spreading fast in Faridganj, Hajiganj, Matlab (N), Matlab (S), Sharasti, Kachua, Haimchar and Chandpur sadar upazilas. About 70 per cent tubewells in the district are arsenic-contaminated.

So far, PHED has sealed off about 1000 arsenic contaminated tubewells in different areas. More tubewells are likely to be sealed off very soon.

10 arms seized

BSS, Dhaka

Police recovered 10 firearms along with four other type of weapons and 19 bullets from across the country during the last 24 hours ending at 6 am yesterday.

They also arrested 1,743 people, including four identified criminals during the period, a police headquarters press release said.

Of the arrested, 796 were wanted by police and 929 accused in different under-investigation cases.

Fourteen persons were arrested in connection with the arms recovery.

The World Health Organisation (WHO) set the tolerable limit of arsenic contamination for Bangladesh at 0.05 mg per litre of water. Samples collected from different parts of the districts indicated that the high percentage of arsenic contents in the tubewell water is extremely dangerous for public health.

The affected villagers urged the government to take appropriate measures to protect them from arsenic-related diseases.

In most of the affected villages, people are compelled to use the water of arsenic-contaminated tubewells, as there is no other alternative source of drinking water.

According to PHED, surface, rain, river and pond water are free from arsenic contamination. Water of deep tubewells under 500 feet are also free from arsenic. Public Health Engineering Department at Chandpur has undertaken a comprehensive scheme to install 1000 deep tubewells at a cost of Tk 2 crore and 88 lakh.

About 500 deep tubewells have already been installed in different villages of the district.

Biotech Lab opens at CU

BSS, Rajshahi

The Biotechnology Laboratory (Biotech Lab) of Rajshahi University (RU) was inaugurated at the Institute of Biological Sciences (IBS) of the university at a simple ceremony yesterday.

The laboratory, set up at a cost of Tk 40 lakh was funded by the Science and Technology Ministry, will provide modern technological facilities for Ph.D and M Phil students of the institute and other related departments for researches in the branches of biological and medical sciences and other related disciplines.

Vice-chancellor of the university, Prof Faisal Islam Faruqi inaugurated the laboratory as the chief guest and Pro-Vice-Chancellor Prof KAM Shahadat Hossain Mondal attended the ceremony as special guest.

Prof Abdul Bari Mian and Prof Wahidul Islam of the institute and PhD research fellows Mofiz Uddin Mollah and Kustari Amina Queen, among others, spoke at the function chaired by Prof Sohrab Ali, director of the institute.

Speaking on the occasion, Prof Faruqi urged the PhD and M Phil students to devote themselves to researches, making proper use of modern technologies for the welfare of the nation.

NI Bhuiyan joins BRRI as DG

Dr. Nurul Islam Bhuiyan

Dr Nurul Islam Bhuiyan, a renowned agricultural scientist, has joined the Bangladesh Rice Research Institute (BRRI) as Director General (DG), says a press release.

Dr Bhuiyan started his career as a Lecturer, Department of Soil Science, Bangladesh Agricultural University (BAU), Mymensingh. Later in 1970, he joined BRRI as scientist and worked here, holding different positions.

During 1997-2000, he was appointed Member-Director (Soil) of the Bangladesh Agricultural Research Council (BARC), Director (Common Service) and Director (Horticulture) of the Bangladesh Agricultural Research Institute (BARI), and Soil and Agriculture Expert of the Environment and GIS Support (EGIS) Project under the Ministry of Water Resources.

He also served BRRI as Director General for seven months and worked as adjunct faculty member of the Bangladesh Sheikh Mujibur Rahman Agricultural University, Salna, Gazipur. He has made significant contributions to agricultural development in the country through applied and basic research on agroecological zone based soil and fertilizer management. He also, played major role in the preparation of the Fertilizer Recommendation Guide for the crops and cropping patterns of the country.

WEATHER TODAY

No change in temperature

UNB, Dhaka

Light to moderate rain or thundershowers accompanied by temporary gusty wind is likely at one or two places over Barisal, Dhaka, Khulna and Chittagong divisions during the next 12 hours till 6pm today.

Day temperature may remain nearly unchanged over the country, Met Offices said.

Yesterday's highest temperature of 35.2 degree Celsius was recorded at Khulna and the lowest of 23.1 degree at Srimongal.

The sun sets in the capital at 5:58 pm today and rises at 5:47 am tomorrow.

The highest and lowest temperature and humidity recorded in some major cities and towns yesterday were:

City/Town	Temperature in Celsius		Humidity in percentage	
	Max	Min	Morning	Evening
Dhaka	33.5	25.5	67	58
Chittagong	34.5	25.0	80	69
Rajshahi	33.5	25.6	77	75
Khulna	35.2	26.5	76	69
Barisal	34.2	25.0	80	88
Sylhet	34.5	24.7	73	71
Cox's Bazar	33.0	25.8	78	73
