Law related to cooperatives to be amended: Bhuiyan

BSS, Dhaka

LGRD and Cooperatives Minister Abdul Mannan Bhuiyan yesterday underscored the need for infusing dynamism to co-operative movement for socio-economic development of the country.

Speaking at a discussion to mark the 31st National Co-operatives Day here, he urged the officials and employees of the co-operative department to come forward with honesty, sincerity and mutual exchanges to achieve the goal.

Department of Co-operatives and Jatiya Samabaya (Co-operative) Union jointly organised the discussion at the BCIC auditorium here.

Stressing the need for reducing dependency on the government

for making the co-operative department self-reliant, he said the government control on any organisation increases due to increased dependency.

He said a new law would be enacted for the people who are involved in co-operative movements bringing amendments to the old one in the next parliament session.

Among other things, Bhuiyan said, the government undertook measures to turn the Co-operative Bank into a commercial bank and bring about a 'milk revolution' within the next four years through Milk Vita, he added.

Highlighting different success stories of co-operative movement in the world Bhuiyan said the picture of co-operative movement

in the country is not encouraging. At first honest, dedicated and patriotic people are needed for making the movement a success, he added.

Referring to different programmes undertaken by the government for expediting the movement, he said stern actions would be taken against the officials and employees engaged in disrupting co-operative movement.

State Minister for LGRD and Cooperatives Ziaul Huq Zia, Deputy Minister Ruhul Quddus Talukder Dulu, Cooperatives Secretary Dhiraj Kumar Nath, Director General of Bangladesh Rural Development Board (BRDB) Matur Rahman also took part in the discussion.

President of Jatiya Samabaya Union Abdul Ali Mridha was in the chair.

ASIA FELLOWSHIPS 2003-2004
~ASIAN STUDIES IN ASIA~

Applications are invited from citizens and residents of South Asian countries for the ASIA Fellowships 2003-04 awarded by the Asian Scholarship Foundation (ASF) which is funded by a grant from the Ford Foundation. Its office in Bangkok administers the ASIA Fellowships in the region with assistance from partner offices in Beijing, New Delhi, Manila, Hanoi, and Jakarta. The ASIA Fellowships offer opportunities for outstanding young and mid-career Asian scholars and professionals to conduct research in a participating Asian country for six to nine months. Fellows should identify preferred placements in host countries. The ASF Board of Directors selects the Fellows, oversees the program and makes policy decisions.

ELIGIBILITY

- Citizens of and residents in Bangladesh, Bhutan, India, Nepal, Pakistan, the Republic of Maldives, Sri Lanka. The program is not open to applicants from countries in West and Central Asia, Afghanistan, Singapore, Japan, Hong Kong, North Korea, South Korea, or Taiwan, and projects cannot be carried out in these countries/territories. Applicants who are not residing in their own country at the time of application are disqualified.
- Research proposals must be in the humanities, social sciences and policy sciences only. Projects must be designed to be carried out in 6-9 months in the People's Republic of China (excluding Hong Kong), Myanmar, Laos, Cambodia, Vietnam, Thailand, Malaysia, Brunei, Philippines or Indonesia, or in any of the seven South Asian countries above.
- Master's or doctoral degree or equivalent professional training and experiences.
- Minimum of 3 years of university teaching experience for academics or 5 years of work experience for professionals.
- Applicants must be forty five years of age or younger at the time of application.
- Proficiency in English or in the language of the host country appropriate to the proposed research project.
- Projects must focus on an Asian country other than the applicant's own. Under no circumstances will the Fellowship support research in the applicant's own country even for the own-country part of a comparative study project.
- While an applicant from South or Southeast Asia may propose a project in a country within his/her own region, preference is given to applicants who propose to conduct research in a region of Asia other than their own (e.g., an award to a South Asian scholar or professional for research in China/Southeast Asia).
- Applicants are cautioned against planning to conduct their research in a country with which their home country has a difficult diplomatic relationship because of the uncertainties of securing an affiliation and obtaining a visa for research for a long-term stay, though such proposals are not ruled out.
- Preference will be given to projects that focus on one country. Applicants may not propose to carry out their projects in more than two countries.
- Fellowship awards are not for the purpose of completing doctoral dissertations or for any degree program whatsoever. Those who are currently enrolled in any degree program, or have just completed a degree program less than one year ago will not be eligible to apply.
- Those who have recently completed their graduate studies or training abroad may apply for the ASIA Fellowships only after a year of completing their studies or training and should be residents in their own country at the time of application.
- For persons who have been on leave from their employers on any research grant/fellowship, a minimum period of one academic year in service with their employers is necessary before being eligible for applying for the ASIA Fellowships.
