**MESSAGE**

I am delighted to know that people of Chittagong will witness the arrival of inaugural flight of "Phuket Air" - a private airline of Thailand and Shah Amanat International Airport on 24th November 2002. A direct air linkage has been established between Chittagong and Bangkok, which is considered to be another milestone towards the development of Chittagong and on this auspicious occasion I welcome that Phuket Air for starting operation of their flights between port of Chittagong and Bangkok.

This is obviously great news for the people of Chittagong who will now have direct access to Thailand and will play a significant role in exploring Chittagong-the commercial capital of the country. I strongly believe that this will pave the way of trade relationship between Bangladesh-Thailand as well as fostering tourism network between the two countries.

I take the privilege to thank the Government of Royal Thailand for extending the facility of arranging a visa desk of Royal Thai Embassy at Chittagong. I also congratulate "Nora Travels Ltd.-GSA of Phuket Air in Bangladesh" for their unique efforts of introducing this first ever direct flights between Chittagong and Bangkok.

It is absolutely undeniable that, tourism is the single most and largest productive sector in to-day's world that is closely related with aviation and hotel industry. A massive development programme on tourism has been initiated in Bangladesh under the dynamic leadership of Madam Prime Minister Begum Khaleda Zia. In this context I sincerely believe that this venture on aviation industry is of high importance and very timely as well. Let there be benefits for both the tourist and the host, let us understand and respect the value of, and need for care for the environment, and let our future generations be benefited from such endeavours.

I sincerely wish all of your a happy and prosperous future in the coming days. Happy Eid Mubarak.
