

TRÜTZSCHLER CUSTOMER DAY

25th MAY, 2004

GRAND BALL ROOM
PAN PACIFIC SONARGAON HOTEL
DHAKA

MESSAGE

I am very happy to know that the Customer Day-2004 is being jointly organized by the German Textile Machineries company Truetzschler GmbH, Germany and Bengal Technological Corporation Ltd. on 25th May 2004 at Pan Pacific Sonargaon Hotel, Dhaka.

Germany is a great friend of Bangladesh. Apart from being our development partner, they are playing a vital role in our quest for rapid economic growth by providing technological assistance.

Today a new horizon of possibilities in textiles lies ahead of Bangladesh. Foreign buyers are more conscious about quality and price. To meet these demands textile manufacturers need modern state of the art machineries. To select such machines customer awareness is of utmost importance. I am confident that the Truetzschler Technical Seminar will put forward latest developments in the field of textile spinning mill machinery and generate awareness amongst the textile entrepreneurs.

I wish the seminar a grand success and congratulate the organizers for holding such an exposition.

Shajahan Siraj

Minister

Ministry of Textiles & Jute

Government of the People's Republic of Bangladesh

TRÜTZSCHLER

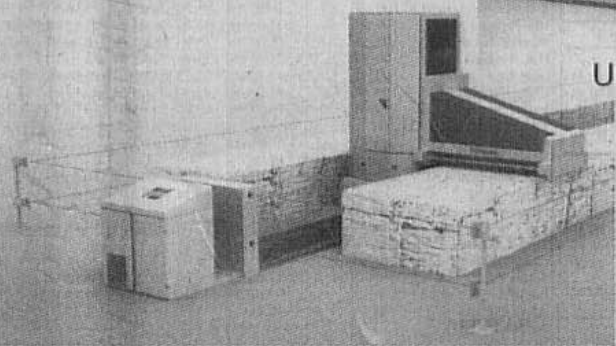

MESSAGE

On behalf of the Truetzschler Management Mr. Heinrich Truetzschler and Dr. Michael Schuerenkraemer I like to welcome all our Bangladeshi customers to the Truetzschler customer day in Dhaka. In my function as Sales Director it is a pleasure for me to welcome so many technically interested customers here in Dhaka.

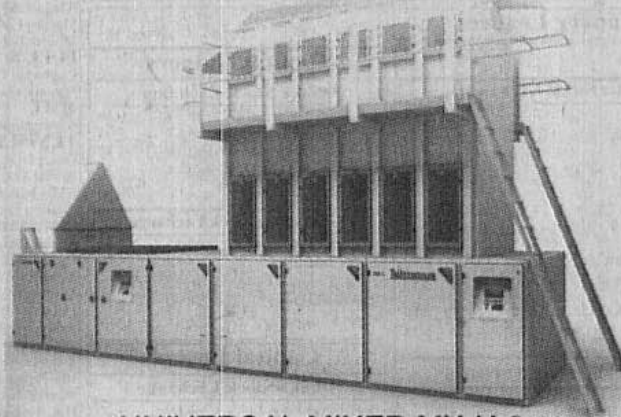

Mr. Gerold Gonska, our Sales Manager in Bangladesh, together with Mr. Hermann Selker, our Head of Marketing and our agent, Bengal Technological Corporation Ltd., will introduce the comprehensive and impressive range of Truetzschler products to you and furthermore explain the technical highlights and innovations.

To offer highly efficient machines and installations as well as a perfectly organized after-sales-service is our ultimate ambition. We would like to thank the Bangladeshi customers for the cooperation so far and hope you will continue to favour us in the future.

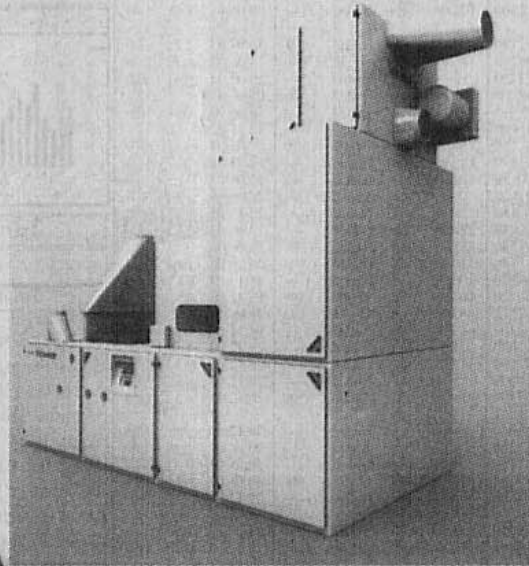

Lutz Friedrich Truetzschler

MESSAGE

Since the independence of Bangladesh, Germany has not only been a committed and reliable development partner, It has also evolved as one of the most important trade partners and the second biggest market for goods "Made in Bangladesh". High quality German textile machines have considerably contributed to make the Bangladesh textile and garments industry highly competitive on the international market. Besides their superior quality, the strength of German machines lies in the committed and reliable after-sales service offered by German companies. With their "customer day" Truetzschler GmbH from Germany and their Bangladesh representative BTCL follow this good tradition. I would like to wish them all the best in this endeavor.

(H.E. Mr. Dietrich ANDREAS)

Ambassador of the Federal Republic of Germany

MESSAGE

It gives me immense pleasure to welcome internationally reputed German Company, our principal M/S Truetzschler, to Dhaka and hold a technical seminar in collaboration with Bengal Technological Corporation Ltd.

The technical seminar is organized to project to the customers new developments added to the Truetzschler machinery and the technical advantages associated with them in practical terms.

The new developments, I understand, are being added to the machinery to make them more efficient, effective and productive. Besides, Truetzschler's machinery, following new additions, will be far more economical because their operational cost, power consumption, maintenance cost, etc. will go down to a significant extent.

I believe, Bangladeshi customers of Truetzschler will derive plenty of benefits and technical know-how from the seminar.

Engr. Md. Wazihullah
Chairman

Bengal Technological Corporation Ltd.
