HP Integrity servers powered by Intel® Itanium® 2 Processors.
Never before have 4 operating systems shared one superior platform.

HP Integrity servers are No. 1 for Windows®, Linux, UNIX and OpenVMS®. There's always been a demand for greater flexibility in IT. In particular for adaptability that's faster than the very speed of change. Let's hear it then for HP's range of Integrity servers, powered by the incredible Intel® Itanium® 2 Processor. HP Integrity servers are extremely agile because they can be re-purposed from one operating system to the next. Moreover, they also provide the best server platform to run your applications for all four of these operating systems: Windows, Linux, UNIX and OpenVMS®. There's more to HP Integrity servers than just the multi-OS compatibility. Consider the availability of the most pervasive enterprise applications on the industry's most powerful server platform: SAP, Oracle, Microsoft SQL server, Siebel and SAS. Consider also, the most comprehensive transition services, including planning, porting, migration, implementation, finance, support and education. Go ahead, empower yourself with the flexibility you need to build an adaptive enterprise. Then get ready for performance, raised to the power of four.
