

Keep away from rumor!

There is a rumor that you can get connected to T&T from an operator's mobile to mobile phones dialing 011 before any specified number.

This is absolutely **Impossible, Untrue** and a **Misconception**. If anyone dials 011 before any mobile phone number, he gets connected to a CityCell number. This is causing a huge inconvenience to our valued customers for which we regret to all extents.

Any vested party spreading this rumor has certainly been involved with malpractice causing irritation across the customers.

We request all not to be misguided by such rumor.
