

What makes Interspeed different from the typical advertising agency.

An Unlimited brand company where out-of-the-box thinking leads to ideas beyond advertising.

360°. At Interspeed we bring together different disciplines to provide holistic and integrated communication solutions for our clients and their brands. We practice what our partners at Ogilvy call 360° Brand Stewardship. From traditional above-the-line and below-the-line advertising, Direct Marketing, Rural Outreach, Media Management to Events Management and Public Relations, we provide cutting edge strategic thinking and deliver innovative and practical communication solutions.

We listen. All our work is based on solid consumer insight. We conduct insight-mining sessions called Brand Audits and commission special research to put our fingers on the consumer's pulse. We have years of experience and insight of marketing and communicating to mothers and young children, the youth and the business community, the marginalized and the rural community from working on our clients' brands.

We think different! Square pegs in round holes! "If it ain't broken, lets break 'em anyway". We hate to play safe. We put a premium on innovation and creativity.

We boldly go where no brand has gone before! When reaching consumers we get down and dirty! That is why we are the only Rural Outreach company in the country.

We deliver. With 36 years of media buying in the business we have excellent relations with all media partners and suppliers. We have an impressive client roster we can leverage and Ogilvy tools we can use. In Ogilvy & Mather, we have the number one communication network in Asia, as our partner.

"Gentle people with brains" in the words of David Ogilvy. We are honest, transparent, passionate, hardworking and humble.
