QUALIFICATIONS AND EXPERIENCE:
BSC in IT-related field
1-3 years of experience in UNIX shell scripting and basic system administration

Technology

BSS Field Engineer Ref. TE1
Responsible for performing O&M tasks related to BSS, Transmission and technical environment equipment.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
1-3 years experience in maintenance of BSS & transmission equipment, preferably have experience on Huawei / Siemens equipment.

Switching Engineer Ref. TE2
Responsible for operation & maintenance of switching equipments.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
1-3 years experience in maintenance of switching equipment preferably have experience on Siemens equipment.

VAS Engineer Ref. TE3
Responsible for operation & maintenance of VAS equipment.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
1-3 years experience in maintenance of IN, SMSC, VMS equipment preferably has experience on Siemens equipment.

Supervision Engineer Ref. TE4
Responsible for controlling the network functionality, report breakdowns, follow-up and reporting maintenance interventions.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
1-3 years experience in the same field preferably has experience on Huawei / Siemens OMC.

BSS OMC Engineer Ref. TE5
Responsible for Performing O&M tasks related to BSS, Transmission equipment.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
1-3 years experience in maintenance of BSS & transmission equipment, preferably have experience on Siemens equipment.

Radio Planning Engineer Ref. TE6
Participate in network design, site surveys frequency planning, and familiar with planning and survey tools usage.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
1-3 years experience in the telecommunication field.

Transmission Engineer Ref. TE7
Responsible for network dimensioning & engineering.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
1-3 years experience in the telecommunication field. Familiar with microwave equipment.

BSS Engineer Ref. TE8
Responsible for BSS architecture, engineering & configuration.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
1-3 years experience in the telecommunication field. Familiar with all GSM networks BSS elements.

Project Control Engineer Ref. TE9
Responsible for coordinating between technical department & the other related departments. Cost control activities. Adminstrating technical department database. Generating follow up reports.

QUALIFICATIONS AND EXPERIENCE:
University/Masters degree in related areas.
1-3 years experience using various computer application software especially MS Access, MS Project & Auto Cad.

Core Network IN Engineer Ref. TE10
Responsible for acceptance of IN equipments. Monitoring Core network performance & Quality using IN statistics reports.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
3-5 years of experience in the same field, preferably have experience on Siemens equipment.

Core Network SSS Engineer Ref. TE11
Responsible for acceptance of SSS equipments. Monitoring Core network performance & Quality using SSS statistics reports. Planning of Network expansion

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
3-5 years of experience in the same field, preferably have experience on Siemens equipment.

Core Network VAS Engineer Ref. TE12
Responsible for acceptance & dimensioning of (SMSC, VMSC) equipment. Monitoring Core network performance & Quality using VAS statistics reports. Planning of Network expansion.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
3-5 years of experience in the same field.

Documentation & Archiving Specialist Ref. TE13
Responsible for documenting subcontractors' correspondence, drawings, expense claims...etc.

QUALIFICATIONS AND EXPERIENCE:
BBA in related areas.
2+ years of experience in the same field.

Rollout Coordinator Ref. TE14
Responsible for interfacing with suppliers in all network rollout activities.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
2+ years of experience in the same field.

Leased Line Specialist Ref. TE15
Responsible for facilitating any routing activities.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
3-5 years of experience in the same field.

Site Construction Engineer Ref. TE16
Responsible for all GSM civil work activities which includes site selection & validation, site follow up & acceptance.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Civil or Architecture engineering.
1-2 years of experience in the same field.

Site Construction Technician Ref. TE17
Responsible for the operations & maintenance of electrical connections & diesel generators in sites.

QUALIFICATIONS AND EXPERIENCE:
Diploma in related field.
3+ years of experience in the same field.

Negotiators Ref. TE18
Responsible for negotiating site acquisition activities.

QUALIFICATIONS AND EXPERIENCE:
University degree in related areas.
3+ years of experience in the field of real estate.

Electrical Connection Expert Ref. TE19
Responsible for follow up on all new electrical connections of the network.

QUALIFICATIONS AND EXPERIENCE:
University degree in related areas.
3-5 years of experience in the same field.

Line Of Site (LOS) Transmission Surveyors Ref. TE20
Responsible for transmission site surveying. Validation of existing sites.

QUALIFICATIONS AND EXPERIENCE:
University/Master degree in Electrical Engineering/ Electronics or Communication.
1-3 years of experience in the same field.

Human Resources & Administration

Human Resources Manager Ref. HR1
Responsible for implementing HR strategies as directed by the company. Develop and implement a broad range of activities in the areas of recruitment, training, and compensation & benefits.
