China lifts import restrictions on steel, other commodities

AFP, *Beijing*

China announced Saturday it has lifted restrictions on the import of steel, natural rubber, wool, acrylic fibers and plywood according to its obligation to the World Trade Organisation, state media said.

"All eligible enterprises can import the five commodities (from now on)," Xinhua news agency quoted the Ministry of Commerce as saying.

The products are open to free trade as from Saturday, the third anniversary of China's entrance of the WTO, according to its agreement with the trade body in 2001, said the Ministry of Commerce website.

Before the relaxation, the Chinese government authorised only a limited number of companies to act as agents for restricted import and export of these commodities.

The restriction of timber import was already cancelled in 1999, Xinhua said.

China's steel product imports were down 15.17 percent to 23.93 million tons in the first three quarters of this year compared with the same period of last year, according to earlier state media reports.

Its steel product exports jumped 67 percent to 8.63 million tons during the same period.

China Iron and Steel Association officials said its steel imports would continue to be greater than exports in the next few years.

China's strong demand for steel amid a construction boom, together with the lifting of the import restrictions, is expected to boost its imports.

Sri Lanka parliament okays radical budget

REUTERS, *Colombo*

Sri Lanka's parliament gave final approval to the government's 2005 budget on Friday, officials said, paving the way for the biggest state worker pay hike in over a decade, tax cuts on essential foods and higher taxes on luxury goods.

Finance Minister Sarath Amunugama's budget, which was unveiled in November, cuts customs duties on raw materials and axes subsidies on goods from fuels to electricity except for the poorest.

Amunugama's maiden budget, the government's first since coming to power in a snap April election, raises salaries of public sector workers, who account for around 1.0 million of island's 19 million people, by 40 percent.

The budget also imposes a 0.2 percent tax on purchases and sales of shares on the stock market.

It forecasts 2005 tax revenue at 351.7 billion rupees ($3.35 billion), up from an expected 282.4 billion rupees in 2004.

The government forecasts a budget gap of 7.6 percent of gross domestic product, down from an expected 8.6 percent this year.

US to go with anti-dumping duties on China furniture

AFP, *Washington*

A US trade panel upheld a decision Friday that Chinese wooden furniture was "dumped" in the United States at unfairly low prices, leaving punitive duties in place.

The quasi-judicial US International Trade Commission determined "that a US industry is materially injured by reason of imports of wooden bedroom furniture from China."

The decision leaves in place duties set by the US Department of Commerce of up to 198 percent.

The case is among a series of trade spats with Beijing, which some US officials and executives contend uses an artificially low currency and various state subsidies to boost exports.

Airbus aims at Boeing's 7E7, launches A350

AFP *Paris*

The European aircraft manufacturer Airbus took aim at rival Boeing Friday with an announcement that it will go ahead and build the long-range, medium-size A350 to do battle with Boeing's 7E7 Dreamliner.

The owners of Airbus Industrie, the European Aeronautic Defence and Space Company (EADS) and BAE Systems of Britain, said Airbus was now authorized to solicit orders for the A350, which would have a seating capacity of 245-285 and should be operational in 2010.

Qatar Airways, Aer Lingus and Korean Airlines are among the potential buyers, according to press reports.

"The long-range market is becoming more segmented in terms of size and capacity," said Airbus chief executive Noel Forgeard.

"Airbus has listened to its customers, who were interested in the medium-size category with greater range."

The A350 is to be offered in two versions, the A350-800, which would carry 245 passengers and have a range of 8,600 nautical miles (15,900 kilometers), and the A350-900, which would seat 285 people and have a range of 7,500 nautical miles (13,900 kilometers).

Boeing has put the market for medium-range aircraft at 2,620 over the next 20 years, while Airbus estimates demand at 3,100 planes in the same period.

Boeing officials have said that such aircraft would be able to serve "fragmenting" long-haul markets, such as the Atlantic and Pacific, as well as shorter routes with a higher potential passenger density, such as in Asia.

Local Interbank FX Trading

Local interbank FX market was subdued on Saturday. Dollar remained steady against Bangladeshi taka.

Local Money Market

Money market was active. Call money rate rose and ranged between 5 and 6 per cent compared with 4.50 and 5.50 per cent previously.

International Market

International market was closed on Saturday due to weekend. On Friday dollar gained against major currencies amid year-end profit taking and in anticipation of higher US interest rates in the next FOMC meeting scheduled on Tuesday. Market expectation of higher interest rate was influenced by a host of positive US economic data. US consumer sentiment index rose to 95.7. In December, much higher than a forecast of 93.5 US producer prices rose 0.5 per cent in November, while excluding food and energy prices, PPI rose 0.2 per cent as compared to 0.3 per cent in October. Yen fell against the dollar on news that Japan's economy barely grew in third quarter and reports showing an unexpected fall in core machinery orders -- a key measure of business investment.
