Proposals Wanted
For Innovative Development Activities/Projects
Dhaka Ahsania Mission has been working throughout Bangladesh for improvement of quality of life of the deprived and downtrodden people for the last fifty years. It has been successfully implementing various programmes on education, health, gender, poverty alleviation, environment, water & sanitation, prevention of child and woman trafficking, prevention of drug abuse, awareness against HIV/AIDS, moral upliftment etc. and already earned wide recognition at the national and international level for its activities.
The Mission is now interested to initiate some more short-term/long-term activities that can help improve overall quality of life of the people of Bangladesh. The Mission believes that there are quite a good number of men and women in the country with wide experience of implementing innovative development activities within or outside Bangladesh. Some of them unfortunately could not have scope to implement some of their innovative and promising ideas/projects due to various reasons/limitations even though those could be implemented in Bangladesh at low cost for bringing desired change in the lives of the people. We are interested to see that these ideas are implemented for the benefit of the people of Bangladesh. Those who have such innovative ideas may please contact us at the following address.
