Coastal Development Strategy (CDS)
Integrated Coastal Zone Management Plan (ICZMP) project is a multi-sectoral and multi-ministerial initiative led by the Water Resources Planning Organization under the Ministry of Water Resources.
The Government of Bangladesh has approved the 'Coastal Zone Policy 2005' recently. The goal is to create conditions, in which the reduction of poverty, development of sustainable livelihoods and the integration of the coastal zone into national processes can take place. Copies of the 'Coastal Zone Policy 2005' can be obtained from our office or our website.
Based on this policy, Coastal Development Strategy (CDS) is presently being formulated. We have already obtained your preliminary feedback on the outline of the CDS through one national and four regional workshops held in October 2004. We intend to present the draft CDS by holding workshop in each of the 19 coastal districts, a few selected upazilas, unions and islands, in March 2005.
Through this, we are seeking your proposition on strategic priorities for the development of the coastal zone. Your opinion will certainly help in identifying appropriate strategic priorities for the coastal zone of Bangladesh.
Please send your opinion through postal or e-mail to
