

SPRING REVIVES COLOUR IN LIVES

SAREES, panjabis and fatuas in vibrant shades of yellow, red and orange welcomed spring, the queen of all seasons in the most traditional fashion yesterday. Young and excited members of all walks of life flocked the Dhaka University campus to herald the dawn of spring that brings along with it the carefree world they live in.

Nothing stops the celebrations -- no political disturbances or other hurdles could hold back the joy that spring brings.

Enthusiasts were in a jubilant, festive mood as the change in seasons seemed to have brought about a change in their moods.

Keeping abreast with the colours of various clothes, girls wore garlands along with flowers in their hair and wrists and a few had their faces painted with colours of spring.
