MESSAGE

Greetings to the Graduates and Their Families

It is my great pleasure to extend my congratulations to all new AIUB graduates on this important occasion. Indeed life ahead is filled with new challenges and adventure. While some of you might start working, some may ponder over post-graduate studies and some may choose to indulge in private business. Whatever your choice, keep the wonderful feeling of success and self-confidence and sustain the relationship with AIUB academic circle and friends who could be invaluable sources of technical and moral support to you in the future.

I also wish to extend my warm regards and greetings to your families, particularly your parents without whom you would not have received continuing support and encouragement until this day of achievement. They will also be there with you and share all the excitements and challenges of the years ahead.

As university education is a social investment of high priority for each and every State, all the graduates should bear this in mind and bring some added responsibilities to your families, to your country and to our one and only world. We need graduates who will strive for a healthier, a safer, a more self-sustained, more ecological balanced and, most important of all, a caring and peaceful society.

I wish you all a sunny road to a better and brighter future.
