

A Tale of 3 Million Lives

8 years ago cellular service was a luxury for some, lavish for some, even rare for some. One organization came to bring a change - they made a difference. This is the tale that started on 26th March, 1997. The tale is about remarkable footprints that GrameenPhone continues to leave behind year after year. The tale is about love, faith and hope of millions of subscribers for GrameenPhone.

With a vision to serve the best, with a dream to be a part of their lives, GrameenPhone

continued its journey. In August 2003, GrameenPhone reached one million subscribers. Their attachment, their faith and their belief doubled this number the very next year. In August 2004, two million subscribers chose GrameenPhone as their preferred operator.

Gradually their love and faith put another milestone in GrameenPhone's path - the impossible became possible. Only 6 months after two million, one million more joined this family.

GrameenPhone salutes its three million subscribers, all the channel partners and every single well-wisher.

They made our voice proud, they made the unbelievable believable.

Thank you for being with us.
