**Common sense is commonly mistaken**

[1902, the maiden flight of aeroplane]

As the President of the Royal Society, Lord Kelvin took the side of common sense when he said "Heavier-than-air flying machines are impossible."

Only 7 years later, in 1902, the Wright Brothers' airplane achieved the first sustained flight in human history. A very uncommon achievement, specially, considering the common sense view.

God bless the Wright Brothers. God bless uncommon sense. Amen

**Mediacom LIMITED**
