**Khan Jahan Ali Bridge**

symbol of friendship between Japan and Bangladesh

Opening Tomorrow

From the people of Japan

Barrister Nazmul Huda
Minister for Communications
Government of The People's
Republic of Bangladesh

Matsushiro Horiguchi
Ambassador of Japan

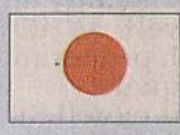

Kazushi Hashimoto
Director General
Development Assistance Department II
Japan Bank for International Cooperation

Khan Jahan Ali Bridge is another milestone in the history of road communication sector of Bangladesh which has fulfilled the long demand of the people of South-West region of the country. Inauguration of this bridge is fulfillment of one more important commitment of Begum Khaleda Zia, The Hon'ble Prime Minister of the Govt. of People's Republic of Bangladesh given to the people.

Khan Jahan Ali Bridge would ease the communication between Mongla Port, South-West region and other parts of the country. This would expand and strengthen the activities of Mongla Port and increase country wide movement of freight and passengers. The bridge will accelerate the economic development of this region.

Japan is one of the major development partners of Bangladesh. The successful completion of this project demonstrates continuous and consistent desire of our most friendly country Japan to share our progress and prosperity and remain as sincere friend of Bangladesh in times of need and for all times. Japanese assistance including JBIC loan and DRGA Counterpart Fund has been provided for implementing this project including Lalon Shah Bridge, Jamuna Bridge access road and for Meghna and Gumti Bridge. I would like to thank Government of Japan on behalf of Government of Bangladesh for their assistance. I would also like to thank RHD, Consultants and Contractors, Government Officers, labourers for successful completion of this project.

It is my great pleasure to see the inauguration of the Khan Jahan Ali Bridge take place tomorrow. The completion of the Bridge is a significant achievement not only for the communication sector of Bangladesh but also in the history of a friendly bilateral relationship between Japan and Bangladesh. I would like to congratulate the Government of Bangladesh and all those concerned for their success in such a big project as the Khan Jahan Ali Bridge, following the Lalon Shah Bridge that was also constructed with the assistance of Japan's Official Development Assistance and opened one year ago. The Government of Japan has provided technical assistance in the project preparation phase and financial assistance for the construction of the Khan Jahan Ali Bridge. The 1360 meter long Bridge will strengthen the economic, cultural and social unity of the Bangladeshi people, and facilitate trade with land locked neighboring countries.

It is my sincere hope that the Khan Jahan Ali Bridge will contribute in achieving our common goal, realization of economic and social development of Bangladesh. We strongly hope that the Khan Jahan Ali Bridge will long be remembered as an important symbol of bilateral friendship between the two countries.

We are very happy on the occasion of the opening of Khan Jahan Ali Bridge built with Japan Bank for International Cooperation (JBIC) assistance going to be open for public tomorrow. In line with Lalon Shah Bridge inaugurated last year, Khan Jahan Ali Bridge over the river Rupsa in Khulna is another milestone in symbolizing the lasting friendship between Japan and Bangladesh. It is my honor to mention that we also extended financial support for constructing Jamuna Bridge, a landmark in the history of road communication in Bangladesh.

Not only the bridges, JBIC has been extending development assistance to various sectors like roads, rural development including rural roads, rural electrification and growth centers, micro-finance, power plants, and fertilizer production in Bangladesh for three decades. With the Mongla port set in full operation Khan Jahan Ali Bridge is believed to encourage neighboring countries to use the port facilities for handling of international cargo.

I would like to congratulate the people and the Government of Bangladesh for implementing this important project. We sincerely hope that the bridge will contribute immensely towards national economy.

Japan Bank for International Cooperation (JBIC) is a policy-based financing institution responsible for conducting Japan's external economic policy and economic cooperation.
