Public Awareness Notice

F. Hoffmann-La Roche Ltd., an internationally reputed and research based Swiss Pharmaceutical Company, has discovered many ground breaking molecules against cancer, kidney diseases, hepatitis, AIDS etc. Roche has introduced the following breakthrough medicines in Bangladesh:

- Recormon[®]
- Neupogen[®]
- Pegasys[®]
- Roferon[®]-A
- Herceptin[®]
- Mabthera[®]

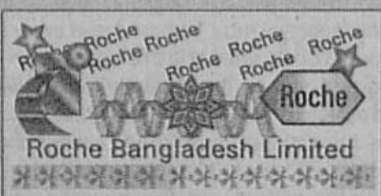

To maintain the efficacy & stability, these biotech products must **always be maintained at temperature between 2°C - 8°C during production, storage, transportation & administration.** Any deviation of the temperature from 2°C - 8°C for a period of 10-12 hours may significantly damage the efficacy of these products.

Strict storage conditions are also required to preserve the following medicines used in difficult to treat diseases:

- CellCept[®]
- Xeloda[®]
- Bondronat[®]
- Kytril[®]
- Vesanoid[®]

In Bangladesh, to assure the appropriate quality, these medicines are sold directly to the patients only from the depots of the distributor of Roche Bangladesh Limited. These temperature sensitive medicines are not supplied to any pharmacy in Bangladesh. We have come to know that these medicines are being sold from some pharmacies. The medicines sold from the pharmacies are smuggled or counterfeited and might be harmful to the patients.

To identify the properly preserved medicines, the following security hologram has been attached to the packs of the medicines. We request our valued customers to pay special attention to the hologram while purchasing the products.

The hologram contains
Roche, 'Roche Bangladesh Limited'
& other features which change colour with movement
