Blasts designed to create division among people

Says Dr Kamal

STAFF CORRESPONDENT

Eminent jurist Dr Kamal Hossain said militants are carrying out repeated bomb attacks across the country to create division among the people in the name of religion.

"The 14 crore people of the country are passing their days in a sense of insecurity due to frequent bomb explosions here and there," he said while addressing a conference of Bangladesh Gonotantrik Ainjibi

Samiti at the Supreme Court yesterday.

Referring to the recent countrywide bomb blasts, he said the government took no steps although it was warned about the possible danger.

Dr Kamal, also the president of Gono Forum, said the spirit of the constitution must be upheld for the greater interest of the country.

The rule of law in the country is under threat as the constitution is being violated, he said, adding that if

the constitution is not properly followed in the running of state affairs, the country would face a grim future.

Dr Kamal said the democratic institutions of the country must function properly in order to establish rule of law and true democracy.

He urged the lawyers to be united and spread their ongoing movement across the country to resist any kind of conspiracy.

SC rejects WorldTel plea for exclusive right to landlines in Dhaka

STAFF CORRESPONDENT

The Appellate Division of the Supreme Court yesterday dismissed WorldTel's petition for retaining its co-exclusive right with Bangladesh Telegraph and Telephone Board (BTTB) to provide landlines in Dhaka, paving the way for private landphone operators to operate.

Following the court order, there remains no legal barrier for Bangladesh Telecommunication Regulatory Commission (BTRC) to license private Public Switched Telephone Network (PSTN) operators to work in the capital, said sources in the telecom industry.

A long-drawn legal battle between the telecoms watchdog and

UK-based WorldTel has deprived for a long time thousands of prospective subscribers of receiving private fixed phone connections in the capital.

In August last year, WorldTel filed a case with the High Court against BTRC and the Ministry of Post and Telecommunications, accusing
