ALL TO WELCOME SUMMIT

THE capital wore a beautiful look to welcome the seven South Asian leaders and other dignitaries who came to join the 13th Saarc Summit. Venues have been tastefully decorated and illuminated. Roads, medians, road islands, intersections, and footpaths cleaned and made attractive with fairy lights, flags, placards and flowers. Odd-looking billboards removed and streetside iron-fences coloured while a number of buildings and walls whitewashed. The city also saw unprecedented security measures with about 40,000 security men in position around the 10 venues and other points. Restrictions imposed on movement in several roads. The forces also checked vehicles and passengers at all entry points especially around the venues.
