Welcoming students and parents to attend our seminar

This is the BEST time to study Computer Science. Canadian and U.S. companies are experiencing a shortage of skilled I.T. labour. Current salaries in Canada for software design engineers average \$101,000/annum (up from \$80,000 in 2001). The Canadian government is calling for 100,000 additional qualified immigrants. Windsor degree holders can work two more years in Canada and apply for Permanent Residence. Dr. Subir Bandyopadhyay

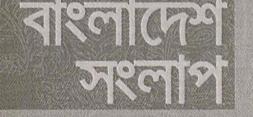

Professor of Computer Science, University of Windson Will be presenting at :

SIEMENS
