

A **TMI** Company

A passion to touch your hearts

No matter how difficult, we will make it happen

It's a different kind of dream, a different passion, not-so-easy task of winning hearts. A lot of milestones in the year 2005 were inspired by this passion. You asked for it and we tried to deliver with heart and soul.

And at the dawn of the new year, we realize that, our attempts to win your hearts through endeavors like 10 second pulse in Pre-Paid connection, savings on 3 friends and family numbers, extended validity of Pre-Paid scratch cards, electronic and flexible recharge system through e-fill, Post-Paid bill payment through Pre-Paid recharges, real time billing (1 second pulse) on Post-Paid, the highest number of Customer Care Centers (13) across the country - were received by you warmly, enabling us to move further ahead with your trust and confidence.

Our journey has not been without flaw. But because you were gracious enough to overlook our flaws and acknowledge our attempts to win your hearts, today we have acquired the most number of customers in our 9 year history, installed the maximum number of BTS stations, extended our network coverage from Teknaf to Tetulia, and launched unique products such as FunDose, AKTEL Exceed and AKTEL Joy. But all these achievements are meager compared to your continuous patronage and support.

In the New Year, our path will be lit only by your commitment to serve you better, to deliver to you the best products and services. Let 2006 shine with your achievements.

Committed to keeping you clearly ahead
