What is Liberal Arts ?

Liberal Arts is the most well-rounded education available.

Liberal Arts does not mean performing arts; it means a solid foundation in core subjects.

Liberal Arts means you can major in your desired subject but you will still take courses across other disciplines. For example, you can major in Computer Science or Business but will also study Bangla Language, World History, and English.

Liberal Arts gives you freedom and control over your career by giving you the wide-ranging skills and knowledge needed to compete in the global marketplace.
