NEW

HP PROLIANT BL480c

Keep pace with high computing demands

• Dual-Core Intel® Xeon® Processor 5000 Series*

• Able to accommodate 8 blade units in 1 enclosure (10U)

PERFORMANCE WITH AN EDGE.

With the integration of HP technology comes the 3rd generation BladeSystem – the HP ProLiant BL480c Server Blade with in-built Dual-Core Intel® Xeon® Processor. Combine this with storage and network in a 44cm tall body, and you get the best of HP's technology to optimise virtual and automated environments. IT resources can now be controlled automatically while providing a flexible IT service that handles changes or relocation 24 hours a day, 365 days a year.

"HP Virtual Connect" Accelerating system automation

Expect easy fault recovery and maintenance. System changes can be made in just 30 seconds without changing LAN or SAN configurations when a server is added or moved.

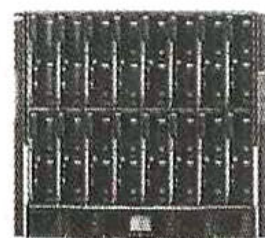

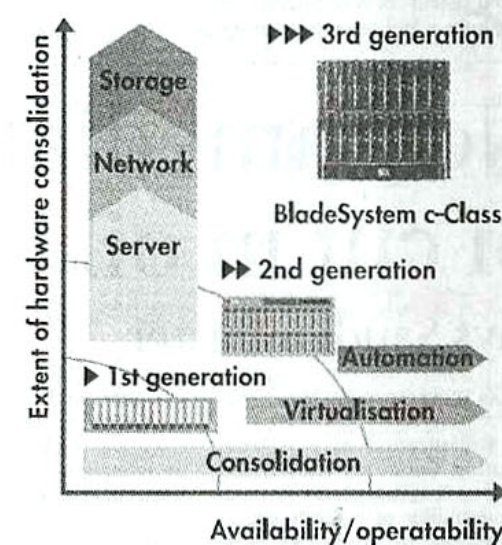

"HP Insight Control" Dramatically optimises system management

The System Insight Display enables fast confirmation and direct operation. Graphical navigation for tasks such as initial set-up and identifying faulty locations ensures effective and substantial system management.

"HP Thermal Logic" Supervises and controls electric power and cooling mechanisms

A dynamic power saver that maintains performance whilst reducing electricity consumption, and determining power and temperature status.

This exclusive technology from HP will greatly change your understanding of the x86 systems.
