

# Nokia N95.

## It's what computers have become.

It's a PC. It's a voice. It's a camera. It's an audience. It's a media player.  
It's a book. It's a GPS. It's a market. It's an MP3 player. It's an eye.  
It's a phone. It's not one thing. It's many.
