Shilpacharya Zainul Abedin Sangrahashala

Preserving Works of a Maestro

Aminul Islam

Great personalities are born to glorify the generations of their times as well as those of the future with their great works. A nation has to wait patiently for ages to have brilliant sons who bring pride and honour through meritorious works in their fields. They are not produced in every age or even in every century.

One such son of the soil is Shilpacharya Zainul Abedin, who made his country familiar to the whole world through his paintings depicting the reality of human lives and socio-economic conditions of the country of his times. Through his works, we find a real artist with vast experience in all aspects of life.
