

SUMMER DELIGHTS

SUMMER fruits have started coming to the city markets. The first batch of mouth-watering mangoes, juicy litchis are already on sale. Besides, there are delicious pineapples, cooling melons, mellow jackfruits, blackberries and a dozen other seasonal fruits. Busy trade points in the city are unloading lots of fruits. Most of them are still pricey. But the prices are expected to become reasonable within a couple of weeks when the summer delights flood markets.

Profile
