It was a program with lots of emotional feelings and attachment involved. Because, it had been the first mega event that the 9th batch students of the Finance Department organized. Needless to say, the students displayed their outstanding effort. Day and night they worked tirelessly with smiles on their faces.

Due to my personal relation with 9th batch volunteers committee, I came to know about many of their funny experiences. Arefin Noor was laughing while he mentioned that the posters were taken by the police as emergency is going on in the country. "They haven't looked at the poster and had no idea about it; they just took it!" he said. Later on posters were rearranged again. "We worked till mid-night and was really fun!" said Md. Saifur Rahman Imran.

The entire designstarting from banners to brochure and posterswas fantastically done by Imran.

Afsana Rahman said, "We became very close with the teachers and the department. While working together, we found them very caring and friendly." Afra Ilham Binyta highly appreciated the contribution of the Chairman sir Professor Dr. Mahmood Osman Imam as well as Mr. Muhammad Mujibul Kabir sir. Mujibul Kabir sir told the team to jump into the task that was given to them. The whole team is grateful to them.
