

TRADE FAIR MAKES A FLYING START

THE month-long colourful trade fair has begun. Thousands of people crowded the fairground on the first Friday although many stalls are yet to finish their decorations. Jewellery stores, home appliance and furniture outlets, crockery stalls and food shops attracted most visitors. This year the fair has 410 participants including seven from foreign countries. Security was beefed up with 40 close circuit cameras. Every year the trade fair turns into a recreation spot for people in a city where scope for entertainment for millions is quite rare.
