Kathmandu meet on Safta discusses non-tariff barriers

XINHUA, Kathmandu

Trade officials from South Asia gathered here Monday to discuss non-tariff barriers (NTBs) under the South Asia Free Trade Area (Safta) framework.

According to website nepalnews.com, the two-day meeting of Safta sub-group on NTBs pushed forward negotiations on the issues that still keep trade from flowing unhindered within the South Asian Association for Regional Cooperation (Saarc) region.

The total intra-regional trade amongst Saarc countries is less than 7 billion US dollars as against the combined international trade of 350 billion dollars carried out by the region, according to the report.

Under the Safta, the eight members Bangladesh, Bhutan, India, the Maldives, Nepal, Pakistan and Sri Lanka and Afghanistan -- will have to liberalise and reduce their tariffs to ensure free trade within the Saarc region. Countries of the region have formed a sub-group to identify NTBs in each country to ensure level-playing field for trade.

Dollar climbs after tough start to 2008

AFP, London

The dollar staged a modest rebound on Monday after a recent hammering that was sparked by growing fears of a recession in the United States, dealers said.

In late morning European trade, the euro fell to 1.4748 dollars from 1.4765 dollars in New York late

- on Friday. ____ The dollar climbed to 109.69 yen from 108.63 yen late Friday.

On Monday, the greenback showed signs of stabilising after stumbling on Friday as a gloomy snapshot of the US labour market raised concerns that the fallout from the subprime mortgage crisis was widening.

In the commodity markets, gold stood Monday at 859.85 dollars per ounce after striking a record high 868.89 dollars last Thursday. The precious metal benefits from a weak US unit as it makes the dollardenominated commodity cheaper for buyers using stronger currencies.

Crude prices, meanwhile, have fallen on profit-taking since striking a record peak above 100 dollars per barrel last week.

This week, the foreign exchange market remains on red alert for fresh signs of US economic weakness, dealers said.

KL may reduce dependence on foreign workers

XINHUA, Kuala Lumpur

The Malaysian government is considering ways to reduce the number of foreign labourers, especially in the construction and industrial sectors, local press reported Monday.

The government was concerned over the number of foreign workers which stands at about 2 million in the country and wanted to reduce it, The Star quoted Malaysian Human Resources Minister Fong Chan Onn as saying.

One approach is to push for a pre-fabrication building to reduce Of the issues traded, 80 | manual labourers at worksites Fong said.

> The measure would also create employment for local workers, who will build the parts in factories instead of worksites, he said.

Another approach is to push automation in the industrial sector, he added.

Job portal urges govt to post job offers online

STAR BUSINESS REPORT

JobsA1.com, an online job portal, yesterday urged the government to post job offers to online job sites in line with providing advertisements on newspapers.

"Increasing number of unemployed people are hunting for jobs through online portals. We urge the government to provide its job offers to online portals in line with advertisements on newspapers, JobsAl.com's Chief Executive Faisal Ahmed told a press conference in Dhaka yesterday, marking its 3rd anniversary.

Online job portals, which are cashing in on the rise in number of internet users, have been increasing over the last couple of years. More than 10 job and career portals are now in operation in Bangladesh, up by over 100 percent from last year, according to operators.

"This rise will help minimise monopoly and encourage competition in the sector," said Faisal, adding that a regulatory commission should be formed to bring discipline in the sector. The job portals display private

sectors jobs, including those published in the print media. Many of these portals also offer various other services, such as CV posting and training for employers and job

Faisal, who claimed to have 2.67000 CVs in its database, said the site generates 3,000 new job advertisements a month on an

up quota for subsidised cooking oil

AFP, Kuala Lumpur

Prime Minister Abdullah Ahmad Badawi on Monday announced that Malaysia will increase the quota for subsidised cooking oil to overcome a nationwide shortage of the vital commodity.

"To overcome the problem a meeting (to discuss the issue) decided to sharply increase the quota for the production of subsidised cooking oil with immediate effect," he said. Supermarket shelves were

stripped of cooking oil in several states last week, with retailers not able to replenish supplies fast

Domestic Trade and Consumer Affairs Minister Datuk Shafie Apdal blamed the crisis on smugglers who cash in on subsidised Malaysian oil by moving it to neighbouring countries.

Abdullah said about 800 million ringgit (244 million dollars) was spent annually on the cooking oil subsidy.

The shortage of cooking oil was caused by strong demand following recent religious celebrations and smugglers, he said.
