

Citigroup to slash \$400b in assets

The ailing dollar, which has

The drop in March imports marked the largest slump since December 2001 when the US

gap with China shrunk to its weakest level since March 2006.

19,000 new jobs in Canada in April

The employment rate, the share of the working-age population who are employed, also continued to hover around a record high in April.

It is these tourists who largely kept our tourism sector going even during the off-

He said his company lost half a million dollars worth of business due to the closure. "Our tourism did not suffer as much as other countries experiencing political instability.

Crude oil initially rose to \$116.32 a barrel, after a report showed that the US lost fewer jobs than forecast in April and as Turkey renewed its military offensive against Kurdish rebels in Iraq. Later in the week crude oil jumped to a record \$123.93 a barrel on signs the US economy was improving, spurring energy demand at a time when refineries are producing less fuel ahead of the peak summer demand season.
