

Stable macroeconomy needed to cut poverty

Seminar told

STAR BUSINESS REPORT

The government needs a stable macroeconomic environment to sustain strong economic performance and reduce poverty, a seminar was told yesterday in Dhaka.

To attain the objective the government needs to review the existing state owned enterprises (SOEs) monitoring system, speakers said at the seminar.

The speakers were discussing a keynote presentation on 'Improving the Monitoring System of State Owned Enterprises' at the seminar on 'Efficiency Enhancement of Fiscal Management (EEFM)-2 Project'.

In his keynote paper former consultant of the World Bank RW Miller recommended the government for considering a standardised analytical framework of the financial performance indicators across all the SOEs.

He also said information technology in the parent ministries, corporations and SOEs should be linked by a three-tiered Wide Area Network (WAN) system; internet based computing should be introduced.

He said the SOEs should ensure that they have adequate skills to interpret and analyze financial indicators especially in areas of cost accounting and auditing, and recruitment and retention of qualified MBA-level staff.

The Reward and Punishment (R and P) scheme of Bangladesh Power Development Board (BPDB) should be used as model for the SOEs, customised for the organization; and if found effective it should be deployed in all the corporations, he said.

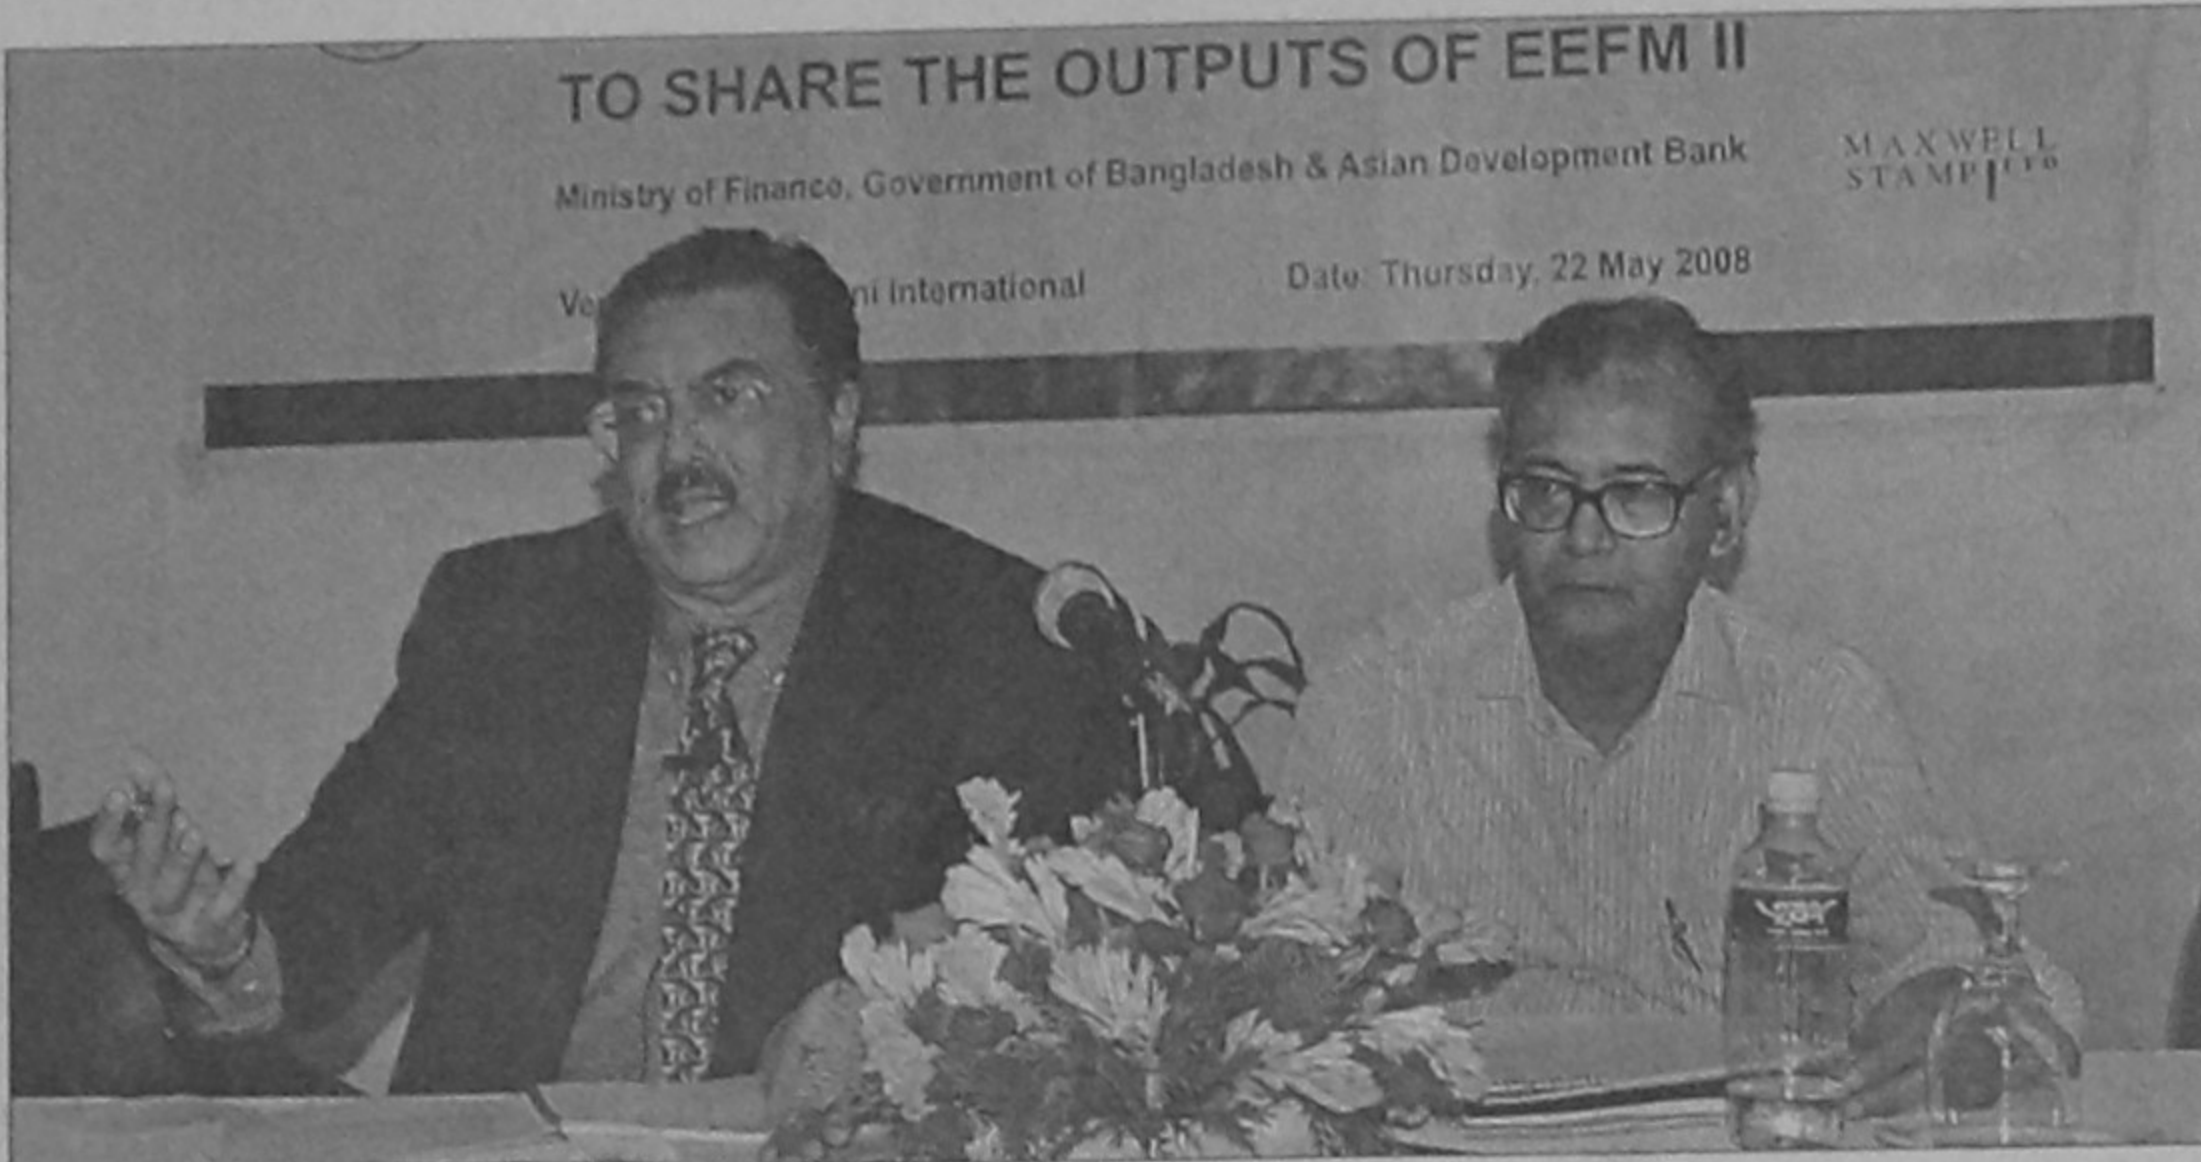

Enabling environment is needed to facilitate effective governance including operational autonomy, clear mandates, accountability, corporate culture, commercial autonomy for pricing, incentive-based compensation system and more private sector representation on corporation boards, Miller said.

Miller further said technology infrastructure of monitoring cell should be upgraded and linked to the corporations for better transmission of monitoring data, which should be stored in a user-friendly manner for management reporting and budget preparation exercises.

Necessary steps should be taken to include statutory provisions for implementing monitoring systems, reward and punishment schemes, and incentive based programs for state owned enterprises which at the moment is lacking, Miller concluded.

Finance Division of the Ministry of Finance in collaboration with the Asian Development Bank (ADB) organised the seminar for sharing outputs of the study conducted under the 'ADB TA: 4044 BAN Efficiency Enhancement of Fiscal Management-2'. Maxwell Stamp Ltd. Bangladesh completed the consultancy service for the study.

Under the projects Maxwell Stamp reviewed the performance of six major loss-making SOEs including Bangladesh Chemical Industries Corporation (BCIC), Bangladesh Jute Mills Corporation (BJMC), Bangladesh Petroleum Corporation (BPC), Bangladesh Power Development Board (BPDB), Biman Bangladesh Airlines (Biman), and Bangladesh Oil, Gas & Mineral Corporation (Petrobangla)

FAKE RE-REGISTRATION BTRC issues show-cause notice to AKTEL

STAR BUSINESS REPORT

The telecoms watchdog has issued a show-cause notice to the country's third largest mobile operator AKTEL accusing it of forgery in the on-going mobile phone subscribers' re-registration process.

Bangladesh Telecommunication and Regulatory Commission (BTRC) in a press statement yesterday said a BTRC surveillance team found AKTEL's involvement in fake re-registration of its subscribers in a room of Jasimuddin Hall of Dhaka University on May 18.

Earlier in August last year BTRC issued an order to Grameenphone, AKTEL, Banglalink, Citycell and Teletalk to re-register customers who bought connections before February 28, 2006. BTRC had to extend the deadline four times.

BTRC recently said some 3 million customers are yet to re-register their cellphone connections with the deadline expiring May 31.

Starting from August 2007, following regulator's directive, mobile operators were able to re-register 70 percent or 7million customers in the last nine months. On average, 7.8 lakh customers had been re-registered per month.

BTRC press release said, "It is very disappointing what AKTEL has done, a complete violation of the Telecom Act 2001."

Grameenphone is the market leader with 17.8 million subscribers, while Banglalink, is the second with 8.3 million. AKTEL, and Warid have 7.4 million and 2.7 million respectively. Citycell, and Teletalk are the other operators.

Spain keen to invest in Bangladesh

UNB, Dhaka

A private sector Spanish business team will soon visit Bangladesh to explore the possible investment potential, said Arturo Manuel Perez Martinez, the ambassador of Spain.

Spain is keen to invest in Bangladesh, said Spain's first-ever Ambassador to Bangladesh during a courtesy call with Chief Adviser Dr Fakhruddin Ahmed yesterday.

The Chief Adviser said Bangladesh welcomes foreign investment, saying that cheap

labour and trainable people here will make a win-win situation for both Bangladesh and foreign investors.

He hoped that trade relations between Dhaka and Madrid would be bolstered during the tenure of the new ambassador as well as Spain would be a destination for exports of Bangladesh like many other European countries.

Dr Fakhruddin said, "A good number of foreign countries have shown interest in making investment in Bangladesh as Bangladesh became an attractive place for investment."

Over one billion dollars have been invested in the export-processing zones in Bangladesh, it was informed.

Both the Chief Adviser and the Ambassador emphasized people-people to contact and exchange of visits between the two countries.

The Chief Adviser said the opening of Spanish Embassy in Bangladesh would play a vital role in translating the existing goodwill and understanding into meaningful bilateral cooperation.

"Bangladesh attaches great importance to its relations with Spain," he added.

Citi tops Asiamoney's structured product poll

Citi has topped several of Asiamoney's structured products polls for 2008, says a press release.

The questionnaire was sent out by Asiamoney, which is one of Asia's leading monthly capital markets magazines, asking senior finance and treasury executives who are actively involved in Asia Pacific structured products to pick their top counter parties based on product breadth, best ideas and most innovative products. A total of 670 institutions voted in the poll, making it Asiamoney's largest ever.

For commodities and credit, Citi maintained the number one spot as the region's best provider. In currency linked structured products, Citi was ranked first for G3 denominated products and second for local currency. For interest rate products, Citi topped the local currency poll and was second for G3 denominated products.
